WHEREAS, a controversy arose concerning the terms and conditions of employment between said company and its workers which they have been unable to adjust by collective bargaining and the controversy was duly certified to the National Defense Mediation Board established by Executive Order of March 19, 1941; and whereas production was interrupted at said plants during the course of mediation before said Board by a strike and the Board, pending further mediation, recommended that the workers call off the strike and the company return all strikers upon application to their former jobs without discrimination, and whereas the workers affected, through their representatives, have accepted but the company has failed to carry out the Board's recommendation; and

WHEREAS, due to such failure on the part of the Company, production has now been impaired and complete cessation of production is now imminent at said plants and the objectives of said proclamation of May 27, 1941, are thereby jeopardized and it is essential to the defense of the United States that normal production be assured and cessation averted; and

WHEREAS, for the time being and under the circumstances set forth, it is essential in order that full production at said plants be assured, that the plants be operated by or for the United States in such manner as may be expedient:—

EXECUTIVE ORDER 8953

ESTABLISHING LOS ANGELES-LONG BEACH HARBOR NAVAL DEFENSIVE SEA AREA

CALIFORNIA

By virtue of and pursuant to the authority vested in me by the provisions of section 44 of the Criminal Code, as amended (U.S.C., title 18, sec. 96), the following-described area is hereby established for purposes of national defense as a defensive sea area, to be known as the "Los Angeles-Long Beach Harbor Naval Defensive Sea Area":

All United States territorial waters of Los Angeles-Long Beach Harbor and its approaches and tributaries from the contour line of extreme high water on the shores of these waters, as shown on the latest U.S.C. and G.S. charts, to the following seaward limits:

A line running along bearing 160° true from Whites Point, California, in approximate Latitude 33° 42' 51" North, Longitude 118° 19' West, to the seaward limit of United States territorial waters;

A line running along bearing 210° true from a point on the shore of Huntington Beach, California, in Latitude 33° 39' 47" North, Longitude 118° 00' 41" West, to the seaward limit of United States territorial waters; and

A line running along the seaward limit of United States territorial waters between the above-described bearing lines.

A vessel not proceeding under United States naval or other United States authorized supervision shall not enter or navigate the waters of the Los Angeles-Long Beach Harbor Naval Defensive Sea Area except during daylight, when good visibility conditions prevail, and then only after specific permission has been obtained. Advance arrangements for entry into or navigation through or within the Los Angeles-Long Beach Har-

bor Naval Defensive Sea Area must be made, preferably by application to a United States Naval District Headquarters in advance of sailing, or by radio or visual communication on approaching the seaward limits of the area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 Kcs and permission to enter the port requested. The name of the vessel, purpose of entry, and name of the master must be given in the request. If visual communications are used, the procedure shall be essentially the same.

A vessel entering or navigating the waters of the Los Angeles-Long Beach Harbor Naval Defensive Sea Area does so at its own risk.

Even though permission has been obtained, it is incumbent upon a vessel entering the Los Angeles-Long Beach Harbor Naval Defensive Sea Area to obey any further instructions received from the United States Navy or other United States authority.

A vessel may expect supervision of its movements within the Los Angeles-Long Beach Harbor Naval Defensive Sea Area, either through surface craft or aircraft. Such controlling surface craft and aircraft shall be identified by a prominent display of the Union Jack.

The loading or unloading by vessels of oil fuel or other inflammable or explosive materials shall be under the control of the local naval authority, who shall require such loading or unloading to be accomplished in such manner and at such times as will safeguard the other activities within the Los Angeles-Long Beach Harbor Naval Defensive Sea Area essential to the national defense.

These regulations are subject to amplification by the local United States naval authority as necessary to meet local circumstances and conditions.

When a United States Maritime Control Area is established adjacent to or abutting upon the Los Angeles-Long Beach Harbor Naval Defensive Sea Area, it shall be assumed that permission to enter, and other instructions issued by proper authority, shall apply to any one continuous passage through or within both areas.

Any master of a vessel or other person within the Los Angeles-Long Beach Harbor Naval Defensive Sea Area who shall disregard these regulations, or shall fail to obey an order of United States naval authority to stop or heave-to, or shall perform any act threatening the efficiency of mines or other defenses or the safety of navigation, or shall take any action inimical to the interests of the United States, may be detained therein by force of arms and renders himself liable to attack by the armed forces of the United States, and liable to prosecution as provided for in section 44 of the Criminal Code, as amended (U.S.C., title 18, sec. 96).

All United States Government authorities shall place at the disposal of the naval authorities their facilities for aiding in the enforcement of these regulations. The Governor of the State of California, the local municipal officials, and the local civilian defense agencies are called upon to render the local naval authorities all possible assistance in the enforcement of these regulations.

The Secretary of the Navy shall be charged with the publication and enforcement of these regulations.

This order supersedes Executive Order No. 8403 of May 7, 1940, entitled "Establishing Los Angeles-Long Beach Harbor Naval Defensive Sea Area—California".

WHEREAS The Senate and House of Representatives of the United States of America in Congress assembled have declared that a state of war exists between the United States and the Imperial Japanese Government;

AND WHEREAS Section 606 of the Communications Act of 1934 (48 Stat. 1104; U.S.C., title 47, sec. 606) authorizes the President under such circumstances to cause the closing of any radio station and the removal therefrom of its apparatus and equipment, and to authorize the use or control of any such station and/or its apparatus and equipment by any agency of the Government under such regulations as the President may prescribe upon just compensation to the owners, and further authorizes him to direct that communications essential to the national defense and security shall have preference or priority;

AND WHEREAS It is necessary to insure the national defense and the successful conduct of the war that the Government of the United States shall take over, operate, and have use or possession of certain radio stations or parts thereof within the jurisdiction of the United States, and shall inspect, supervise, control or close other radio stations or parts thereof within the jurisdiction of the United States, and that there should be priority with respect to the transmission of certain communications by wire or radio;

5. No radio station or facility shall be taken over and operated in whole or in part or subjected to governmental supervision, control or closure unless such action is essential to national defense and security and the successful conduct of the war. So far as possible, action taken pursuant to this Order shall not interfere with the procurement needs of civilian governmental agencies, the normal functioning of industry or the maintenance of civilian morale.

6. Until and except so far as said Board shall otherwise provide, the owners, managers, boards of directors, receivers, officers and employees of the radio stations shall continue the operation thereof in the usual and ordinary course of business,

in the names of their respective companies, associations, organizations, owners or managers, as the case may be.

7. The head of any department or agency which uses or controls any radio station pursuant to the terms of this Order shall ascertain the just compensation for the use or control of such radio station and recommend such just compensation in each such case to the President for approval and action by him in accordance with the provisions of subsection (d) of Section 606 of the Communications Act of 1934 (U. S. C., title 47, sec. 606 (d)).

EXECUTIVE ORDER 9001

AUTHORIZING THE WAR DEPARTMENT, THE NAVY DEPARTMENT, AND THE UNITED STATES MARITIME COMMISSION TO PER- FORM THE FUNCTIONS AND EXERCISE THE POWERS DESCRIBED IN TITLE II OF AN ACT APPROVED DECEMBER 18, 1941, EN- TITLED "AN ACT TO EXPEDITE THE PROS- ECUTION OF THE WAR EFFORT", AND PRESCRIBING REGULATIONS FOR THE EX- ERCISE OF SUCH FUNCTIONS AND POWERS

The successful prosecution of the war requires an all-out industrial mobilization of the United States in order that the materials necessary to win the war may be produced in the shortest possible time. To accomplish this objective it is necessary that the Departments of War and the Navy and the United States Maritime Commission cooperate to the fullest possible degree with the Office of Production Management in the endeavor to make available for the production of war material all the industrial resources of the Country. It is expected that in the exercise of the powers hereinafter granted, these Agencies and the Office of Production Management will work together to bring about the conversion of manufacturing industries to war production, including the surveying of the war potential of industries, plant by plant; the spreading of war orders; the conversion of facilities; the assurance of efficient and speedy production; the de-

velopment and use of subcontracting to the fullest extent and the conservation of strategic materials.

TITLE I

1. By virtue of the authority in me vested by the Act of Congress, entitled "An Act to expedite the prosecution of the War effort", approved December 18, 1941, (hereinafter called "the Act") and as President of the United States and Commander-In-Chief of the Army and Navy of the United States, and deeming that such action will facilitate the prosecution of the war, I do hereby order that the War Department, the Navy Department, and the United States Maritime Commission be and they hereby respectively are authorized within the limits of the amounts appropriated therefor to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance, progress, and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts. The authority herein conferred may be exercised by the Secretary of War, the Secretary of the Navy, or the United States Maritime Commission respectively or in their discretion and by their direction respectively may also be exercised through any other officer or officers or civilian officials of the War or the Navy Departments or the United States Maritime Commission. The Secretary of War, the Secretary of the Navy, or the United States Maritime Commission may confer upon any officer or officers of their respective departments, or civilian officials thereof, the power to make further delegations of such powers within the War and the Navy Departments, and the United States Maritime Commission.

2. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans,

spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

3. The War Department, the Navy Department, and the United States Maritime Commission may by agreement modify or amend or settle claims under contracts heretofore or hereafter made, may make advance, progress, and other payments upon such contracts of any percentum of the contract price, and may enter into agreements with contractors and/or obligors, modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under surety or other bonds, whenever, in the judgment of the War Department, the Navy Department, or the United States Maritime Commission respectively the prosecution of the war is thereby facilitated. Amendments and modifications of contracts may be with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished hereunder, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract, or the amendments or modifications thereof.

4. Advertising, competitive bidding, and bid, payment, performance or other bonds or other forms of security, need not be required.

TITLE II

Pursuant to Title II of the Act and for the protection of the interests of the United States, I do hereby prescribe the following regulations for the exercise of the authority herein conferred upon the War Department, the Navy Department, and the United States Maritime Commission.

1. All contracts and all purchases made pursuant to the Act and this Executive Order shall be reported to the President of the United States. Such reports shall be made at least quarter-annually, provided, however, that purchases or contracts of less than \$100,000 may be consolidated in such reports with other such

purchases and need not be separately set forth. In case the War Department, the Navy Department, or the United States Maritime Commission shall deem any purchase or contract to be restricted, confidential, or secret in its nature by reason of its subject matter, or for other reasons affecting the public interest, such purchases or contracts shall not be included with those described in the report just mentioned, but shall be included in a separate report containing such restricted, confidential, or secret purchases or contracts. The Secretary of War, the Secretary of the Navy, and the United States Maritime Commission shall make public so much of such reports (other than those reports covering restricted, confidential, or secret contracts or purchases) as they shall respectively deem to be compatible with the public interest.

2. Notwithstanding anything in the Act or this Executive Order the War Department, the Navy Department, and the United States Maritime Commission shall not discriminate in any act performed thereunder against any person on the ground of race, creed, color or national origin, and all contracts shall be deemed to incorporate by reference a provision that the contractor and any subcontractors thereunder shall not so discriminate.

3. No claim against the United States arising under any purchase or contract made under the authority of the Act shall be assigned except in accordance with the Assignment of Claims Act, 1940 (Public No. 811, 76th Congress, approved October 9, 1940).

4. Advance payments shall be made hereunder only after careful scrutiny to determine that such payments will promote the national interest and under such regulations to that end as the Secretary of War, the Secretary of the Navy, or the United States Maritime Commission may prescribe.

5. Every contract entered into pursuant to this order shall contain a warranty by the contractor in substantially the following terms:

"The contractor warrants that he has not employed any person to solicit or secure this contract upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the

Government the right to annul the contract, or, in its discretion, to deduct from the contract price or consideration the amount of such commission, percentage, brokerage, or contingent fees. This warranty shall not apply to commissions payable by contractors upon contracts or sales secured or made through bona fide established commercial or selling agencies maintained by the contractor for the purpose of securing business."

6. Nothing herein shall be construed to authorize the cost-plus-a-percentage-of-cost system of contracting.

7. Nothing herein shall be construed to authorize any contracts in violation of existing law relating to limitation of profits, or the payment of a fee in excess of such limitation as may be specifically set forth in the act appropriating the funds obligated by a contract. In the absence of such limitation, the fixed fee to be paid the Contractor as a result of any cost-plus-a-fixed-fee contract entered into under the authority of this Order shall not exceed seven per centum of the estimated cost of the contract (exclusive of the fee as determined by the Secretary of War, the Secretary of the Navy, or the United States Maritime Commission, as the case may be).

8. No contract or modification or amendment thereof shall be exempt from the provisions of the Walsh-Healey Act (49 Stat. 2036) because of being entered into without advertising or competitive bidding, and the provisions of such act, the Davis-Bacon Act, as amended (49 Stat. 1011), the Copeland Act, as amended (48 Stat. 948), and the Eight Hour Law, as amended by the Act of September 9, 1940 (Public No. 781, 76th Congress) if otherwise applicable shall apply to contracts made and performed under the authority of this Order.

3. The procedures for adjusting and settling labor disputes which might interrupt work which contributes to the effective prosecution of the war shall be as follows: (a) The parties shall first resort to direct negotiations or to the procedures provided in a collective bargaining agreement. WHEREAS millions of the citizens of this country are engaged in war industries or have been or expect to be called to duty with the armed forces of the United States, which militates against their competing for employment in the Federal service, and greatly diminishes the number of persons available for competitive positions in the Federal service; and

I hereby further authorize and direct the Secretary of War and the said Military Commanders to take such other steps as he or the appropriate Military Commander may deem advisable to enforce compliance with the restrictions applicable to each Military area hereinabove authorized to be designated, including the use of Federal troops and other Federal Agencies, with authority to accept assistance of state and local agencies.

I hereby further authorize and direct all Executive Departments, independent establishments and other Federal Agen-

If, within that period, the employing department or agency presents to the Civil Service Commission evidence that its work will be jeopardized by the loss of the employee's services, the Civil Service Commission shall consider such evidence and make a final decision. Transfers to departments and agencies having the same or lower classifications, shall not be effected without the consent of the department or agency in which the employee is serving.

4. Any employee transferred pursuant to this Order shall be entitled to all the reemployment benefits provided by Executive Order No. 8973 of December 12, 1941.

EXECUTIVE ORDER 9088

PREScribing REGULATIONS CONCERNING CIVILIAN DEFENSE

By virtue of the authority vested in me by the act entitled "An Act to provide protection of persons and property from bombing attacks in the United States, and for other purposes", approved January 27, 1942, and as President of the United States and Commander in Chief of the Army and Navy, I hereby prescribe the following regulations concerning civilian defense:

1. Such funds as may be available to enable the Director of Civilian Defense to carry out the provisions of the aforementioned act of January 27, 1942, shall be used only for acquiring facilities, equipment and supplies necessary to provide for the adequate protection of persons and property from bombing attacks, sabotage and other war hazards in the United States, its territories and possessions; for providing services necessary to facilitate effective use of all such facilities, equipment and supplies; for defraying expenses of procurement (including research and development), inspection, transportation, storage, maintenance, protection, distribution, recovery and return of facilities, equipment and supplies; and for accounting and administration with respect to such facilities, equipment and supplies, services and expenses.

2. The Director of Civilian Defense from time to time within the limitations of such funds as may be available to the Office of Civilian Defense shall determine the general types and respective quantities of equipment which he shall deem necessary and desirable to be purchased. In making such determinations, the Director shall be afforded the advice and assistance of the War Department and may make use of any other technical assistance, studies, reports or information which may be available to him.

3. The Director of Civilian Defense shall notify the Secretary of War, or such chiefs of services, bureaus or divisions of the War Department as the Secretary may direct, of each determination by the Director of the necessity of and desirability for the purchase of equipment in accordance with paragraph 2 of this order. The War Department shall thereupon undertake all steps necessary for the procurement as promptly as

possible of equipment of the type and in the quantity specified by the Director of Civilian Defense.

4. In connection with the procurement of items of equipment for the Office of Civilian Defense the War Department shall undertake all necessary research, development and standardization of such equipment; shall contract for the purchase of such equipment; shall conduct all necessary inspections during and upon completion of manufacture or assembly; and shall see that all equipment conforms to specifications prior to acceptance.

5. The War Department shall keep the Director of Civilian Defense informed of specific items of equipment being procured and of the approximate or probable dates for delivery thereof, and the Director of Civilian Defense shall furnish to the War Department timely instructions as to the place or places at which such equipment shall be delivered to the Office of Civilian Defense or upon its order. The War Department shall make all necessary and appropriate arrangements for the shipment of such equipment to the place or places so designated and shall be responsible for such equipment until delivery at such place or places. Thereafter the Office of Civilian Defense shall be responsible for such equipment, including its storage, maintenance, protection, issue and distribution.

6. There shall be made available to the War Department, from time to time, within the limitations of such funds as may be available to the Office of Civilian Defense, sufficient funds to cover all proper expenses incurred by the War Department in pursuance of this order, including costs of research, development, procurement, inspection, transportation, and furnishing of facilities and services. The War Department shall have authority to pay all such expenses out of the funds so made available to it. The War Department shall keep the Office of Civilian Defense informed from time to time of all expenditures made from, and obligations incurred against, the funds so made available to it.

7. In addition to facilities, equipment and supplies provided for the Office of Civilian Defense through the War Department as hereinbefore authorized, the Director of Civilian Defense may accept equipment or supplies transferred from any other department or agency of the Federal Government in conformity with applicable law, and may accept dona-

tions of, or may borrow or lease facilities, equipment or supplies from, states, municipalities or other political subdivisions, or from private individuals or corporations. The Office of Civilian Defense shall maintain at all times full and accurate records of all property received by it and of the disposition thereof. The Director of Civilian Defense shall make adequate arrangements for the storage, maintenance and protection of all equipment, facilities and supplies of the Office of Civilian Defense in its possession.

8. Within the limitations of such funds as may be available to the Office of Civilian Defense, the Director may arrange with other public or private agencies for such research or development work, in addition to that of the War Department in connection with the procurement of equipment, as he may deem advisable in order better to provide for the adequate protection of persons and property from bombing attacks, sabotage or other war hazards.

9. The Director of Civilian Defense shall make available the facilities, supplies, and services of the Office of Civilian Defense in such localities in the United States, its territories and possessions as he shall determine to be in need of, but unable to provide, adequate protection of persons and property from bombing attacks, sabotage or other war hazards. The Director shall have full discretionary authority from time to time (a) to define localities on the basis of existing political subdivisions or on such other bases as he may deem appropriate in view of areas of population density, the location of vital war activities, or other factors giving rise to particular risks from bombing attacks, sabotage or other war hazards, (b) to allocate, under such priorities as he may establish facilities, supplies and services to or among localities in need of, but unable to provide, adequate protection of persons and property from bombing attacks, sabotage or other war hazards, and (c) to recall any facilities or supplies, or discontinue any services so allocated to any locality. In allocating facilities, supplies or services to any particular locality the Director may rely upon certificates of duly constituted civil authorities of any state, territory, municipality or other political subdivision comprising or situated within such locality, setting forth the particular facilities, supplies or services which such state, territory, municipality or other political subdivision is unable to

provide for the protection of persons and property from bombing attacks, sabotage, or other war hazards.

10. All equipment, facilities and supplies which shall at any time be provided by the Director of Civilian Defense for any locality shall be at the disposition of the United States Government, and the United States Government shall retain in full its rights in such property as owner, lessee or borrower, as the case may be. To such extent as may be practicable, all such property shall be clearly and distinctly marked as the property of, or property under the control of, the United States Government, Office of Civilian Defense. It shall be the duty of the Director of Civilian Defense to report to the Attorney General for appropriate prosecution under the applicable provisions of the Federal Criminal Code any theft, unlawful use, injury to or depredation committed against any such property.

11. The equipment, facilities and supplies of, or under the control of, the Office of Civilian Defense shall be made available in any locality only by loan to duly constituted civil authorities of any state, territory, municipality or other political subdivision comprising or situated within such locality, and any such authority may distribute the same to responsible and qualified individuals or organizations, in accordance with regulations issued by the Director of Civilian Defense; provided that it shall be a condition of all such loans that the civil authority to which each loan is made shall give assurance to the Director that the property loaned shall be adequately protected and maintained, that it shall not be used otherwise than for the protection of persons or property from bombing attacks, sabotage or other war hazards or for training or instruction incidental to such use, and that such property unless lost, destroyed or consumed in the course of such use shall be returned to the United States Government at any time upon order of, or pursuant to rules or regulations prescribed by, the Director of Civilian Defense.

12. The Director of Civilian Defense may prescribe insignia, arm bands and other distinctive articles which may be worn by persons engaged in civilian defense activities and may establish rules and regulations for the wearing thereof. The wearing of any such insignia, arm band or other distinctive article other-

wise than in accordance with such rules or regulations by any person having knowledge thereof shall subject such person to the penalties provided in section 2 of the act of January 27, 1942.

13. The Director of Civilian Defense may make and issue such rules, regulations and orders, may prescribe and adopt such forms, and may make and enter into such agreements, leases and arrangements, not inconsistent with the act of January 27, 1942, the terms of any appropriations thereunder, and the regulations prescribed in this order, as he may deem necessary or desirable to carry out the purposes of such act. The Director may exercise any of the powers or duties conferred upon him by this order or by the act of January 27, 1942, through any responsible person in the employ of the Office of Civilian Defense that he may designate.

14. All purchases and contracts for supplies or services made pursuant to this order shall be exempt from the requirements of section 3709 of the Revised Statutes to the extent permitted by law.

EXECUTIVE ORDER 9122

TO AMEND THE PROVISIONS OF EXECUTIVE ORDER No. 8588 ENTITLED "PRESCRIBING REGULATIONS GOVERNING THE PAYMENT OF EXPENSES OF TRANSPORTATION OF HOUSEHOLD GOODS AND PERSONAL EFFECTS OF CERTAIN CIVILIAN OFFICERS AND EMPLOYEES OF THE UNITED STATES"

By virtue of and pursuant to the authority vested in me by the act of October 10, 1940, 54 Stat. 1105, entitled "An Act to provide for uniformity of allowances for the transportation of household goods of civilian officers and employees when transferred from one official station to another for permanent duty," it is hereby ordered as follows:

1. Section 5 of Executive Order No. 8588 of November 7, 1940, is amended to read as follows:

"SECTION 5. *Means of Shipment.* Shipment shall be by the most economical means, taking into consideration the costs of packing, crating, drayage, unpacking, and uncrating: *Provided, however,* That the employee may have his effects moved by some means other than that determined to be most economical by paying the difference between the lowest available charges and the charges by the preferred means: *And provided further,* That, when the head of the department or agency determines it to be in the interest of the Government, he may specifically authorize the shipment by express of articles required for immediate use at the new official station (such as professional books, wearing apparel, bedding or kitchen utensils, but not furniture or jewelry), which shall in no case exceed a weight of 500 pounds for employees having dependents living with them or 250 pounds for employees having no dependents living with them. In considering comparative transportation costs as required by this section, the lowest available motor van charges may be determined by consulting published tariffs or by securing competitive bids, the use of either method to be construed as being determinative of the lowest available rate for motor transportation."

2. Section 6 of the said order is amended to read as follows:

"SECTION 6. *Use of Government Bill of Lading or Purchase Order.* Shipment shall be made on Government bill of lading or purchase order whenever possible; otherwise reimbursement shall be made to the employee for transportation expenses actually and necessarily incurred within the limitations prescribed by these regulations. If property in excess of the amount allowable under these regulations is shipped on a Government bill of lading or purchase order with the authorized allowance the employee shall immediately upon completion of the shipment pay to the proper officer of the department or establishment an amount equal to the charge for the transportation of such excess."

3. Section 11 of the said order is amended to read as follows:

"SECTION 11. *Shipment from Points*

Other Than Official Station. The expenses of transportation authorized hereunder shall be allowable whether the shipment originates from the employee's last official station or from some previous place of residence, or partially from both: *Provided,* That the cost to the Government shall not exceed the cost of shipment in one lot by the most economical route from the last official station to the new. Shipments involving a cost greater than that authorized by this section may be made on a Government bill of lading, but the employee shall be required to reimburse the Government for the excess cost immediately upon completion of the shipment. No expenses shall be allowable for the transportation of property acquired en route from the last official station to the new. For the purposes of these regulations, the term 'official station' shall be construed to include any point from which the employee commutes daily to his official post of duty."

4. Section 12 of the said order is amended to read as follows:

"SECTION 12. *Time Limit.* All shipments allowable under these regulations shall begin within six months of the effective date of the transfer of the employee unless an extension is specifically granted by the head of the department or establishment. Such an extension shall be approved by the head of the department or establishment within the six months' period during which shipment would otherwise begin and shall in no case be for a period exceeding two years from the effective date of the transfer, except that, for employees who enter upon active military, naval, or Coast Guard duty at any time prior to the expiration of the period within which transportation of their effects is authorized and who are furloughed for the duration of such duty, the extension may be made effective until a date not more than sixty days following the date of termination of the furlough."

5. This order shall become effective immediately and shall be published in the FEDERAL REGISTER.

APPROVING REGULATIONS OF THE CIVIL SERVICE COMMISSION RELATING TO EFFICIENCY-RATING BOARDS OF REVIEW

By virtue of the authority vested in me by section 9 of the Classification Act of

1923 (42 Stat. 1490), as amended by Title V of the Act of June 30, 1932 (47 Stat. 416), by section 7, Title II of the Act of November 26, 1940 (54 Stat. 1215), and by section 3 of the Act of August 1, 1941, Public No. 200, 77th Congress, I hereby approve the following regulations prescribed by the Civil Service Commission:

REGULATIONS RELATING TO EFFICIENCY RATING BOARDS OF REVIEW

Pursuant to the authority vested in the Civil Service Commission by section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by Title V of the Act of June 30, 1932 (47 Stat. 416), by section 7, Title II of the Act of November 26, 1940 (54 Stat. 1215), and by section 3 of the Act of August 1, 1941, Public No. 200, 77th Congress, the following regulations are hereby prescribed with respect to efficiency-rating boards of review:

1. There shall be established in each department and independent establishment having positions and employees subject to section 9 of the Classification Act of 1923, as amended, one or more boards of review for the purpose of considering and passing upon the merits of efficiency ratings assigned to such employees.

2. The head of each department or independent establishment shall determine the number and jurisdiction of boards of review to be established within his department or establishment, subject to the approval of the Civil Service Commission. The jurisdiction of each board of review shall be specific and shall be exclusive of that of any other such board.

3. (a) Each board of review shall be composed of three members, and there shall be an alternate member provided for each principal member who shall serve during the absence of such principal member or when the principal member is unable to serve for any other reason and who shall succeed the principal member in the event that he is unable to serve to the end of his term of office. Where necessary in the interest of good administration, and in order to expedite the consideration of cases, an additional alternate member may be designated for each principal member. Members of boards of review and alternate members shall be appointed or designated for one-year terms.

(b) One member of each board of review and alternates to such member shall be designated by the head of the department or establishment served by such board.

(c) Another member of each board of review and alternates to such member shall be designated by election by the employees whose efficiency ratings are under the jurisdiction of the board in such manner as shall be determined by the Civil Service Commission.

(d) Chairmen and alternate chairmen for the boards of review shall be designated by the Civil Service Commission.

(e) All members of boards of review and all alternate members shall be officers or employees of the executive branch of the Federal government; provided, however, that in the case of boards of review serving agencies not in the executive branch, such members and alternate members (except chairmen and alternate chairmen) shall be appointed or elected from the branch of government to which such agencies respectively belong.

4. Each appeal from an efficiency rating shall be submitted in writing to the chairman of the appropriate board of review within ninety days of the date that notice of such rating was delivered to the employee. Boards of review may waive this requirement for good and sufficient reasons, as in cases (a) where it appears that appellants were not in a position to make an appeal within the ninety-day period, (b) where employees elected to avail themselves of the grievance procedures in their own departments or establishments before proceeding with appeals under these regulations, or (c) where new evidence is discovered after the close of the ninety-day period which would have a bearing on the decision concerning the appeal. On the request of the Civil Service Commission, certified in writing, efficiency ratings which require the dismissal, demotion, or reduction in salary of employees subject to the approval of the Civil Service Commission under section 9 of the Classification Act of 1923 as amended shall be considered by boards of review in the same manner as if appealed by such employees.

5. Hearings conducted on efficiency-rating appeals and certified cases shall

be on as informal a basis as possible and yet permit the presentation of all information necessary to ascertain the correctness of the rating in question or the rating which should be assigned the employee. An oral hearing may be waived by the appellant, or employee whose rating is certified for review, and the board of review may thereupon proceed to a consideration of the case on the basis of written evidence submitted by the parties. Stenographic reports of oral hearings shall be required only when it is determined by the unanimous vote of the board that they are necessary to the best interests of the Government and employee. In all proceedings before boards of review, each employee whose efficiency rating is under consideration shall be entitled to have a representative of his own selection; and at oral hearings each appellant or employee whose rating is certified for review shall be entitled to appear with his representative. The appellant, or employee whose rating is certified for review, and his representative, and such representatives of the department or establishment as are designated by the head thereof, shall be afforded an opportunity to submit orally or in writing any information deemed by the board of review to be pertinent to the case, and shall be afforded an opportunity to hear or examine, and to reply to, information submitted to such board by other parties.

6. After ascertaining the pertinent facts in each case, the board of review shall proceed to determine such adjustment in the efficiency rating as it deems proper, or sustain the efficiency rating appealed from without change. Decisions shall be made by a majority vote. Notices of decisions of boards of review shall be communicated to the heads of the departments or independent establishments and to the appellants, and employees whose ratings are certified for review, in writing and shall contain summary statements of the facts on which the decisions are based. Copies of the decisions of the boards shall also be forwarded to the Civil Service Commission.

7. These regulations will supersede the regulations in Executive Order No. 8748

of May 1, 1941, and shall become effective on July 1, 1942.

LUCILLE FOSTER McMILLIN,
ARTHUR S. FLEMING,

EXECUTIVE ORDER 9172

ESTABLISHING A PANEL FOR THE CREATION OF EMERGENCY BOARDS FOR THE ADJUSTMENT OF RAILWAY LABOR DISPUTES

WHEREAS, Section 5 of the Railway Labor Act, as amended (Ch. 8, title 45, U.S.C.) provides that for a period of thirty days after mediatory efforts of the National Mediation Board have failed to settle a dispute "no change shall be made in the rates of pay, rules, or working conditions or established practices in effect prior to the time the dispute arose"; and

WHEREAS, duly designated and authorized representatives of employees may, during this thirty day period, take a strike vote and fix a date for the strike to become effective; and

WHEREAS, Section 10 of the said Railway Labor Act requires the National Mediation Board to notify the President if an unadjusted dispute threatens, in its judgment, substantially to interrupt interstate commerce to a degree such as to deprive any section of the country of essential transportation service, and provides that upon receipt of such notification the President may, in his discretion, create a board to investigate and report respecting such dispute; and

WHEREAS, the national interest demands that for the effective prosecution

of the war there shall be no strike votes taken, or dates fixed for the beginning of strikes, or strikes, lock-outs, or embargoes put into effect, which would affect the transportation industry covered by the Railway Labor Act.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and the Statutes of the United States, and in order to adjust the policies and procedures under the said Act to the requirements of the war emergency, it is hereby ordered as follows:

1. There is hereby created, for the duration of the war and six months thereafter, a National Railway Labor Panel of nine members, hereinafter referred to as the Panel, to be appointed by the President, and to be qualified as to membership thereon in the same manner as provided in Section 10 of the Railway Labor Act for membership on emergency boards. The President shall designate a chairman from the members of the Panel and shall fill vacancies thereon as they may occur. The Chairman of the Panel shall receive such compensation, together with necessary travelling expenses, as the President may prescribe. The members of the Panel shall receive necessary travel expenses and subsistence expenses or per diem allowances in lieu thereof on such days as they are actually engaged in performance of duties pursuant to this Order.

2. Whenever a dispute between a carrier or carriers and its or their employees concerning changes in rates of pay, rules, or working conditions, or whenever any other dispute not referable to the National Railroad Adjustment Board, is not adjusted or settled under the provisions of Sections 5, 6, 7, 8, and 9 of the Railway Labor Act, the duly designated and authorized representatives of employees involved in such dispute may, prior to notice by the National Mediation Board to the President of a threatened interruption to commerce, notify the Chairman of the Panel of the failure of the parties to adjust the dispute and of their desire to avoid the taking of a strike vote and the setting of a strike date. If, in the judgment of the Chairman of the Panel, the dispute is such that if unadjusted, even in the absence of a strike vote, it may interfere with the prosecution of the war, he may thereupon select three members of the Panel to serve as an emergency board to investigate such dispute and to report thereon to the Presi-

dent. Subject to the provisions of Section 10, such board shall have exclusive and final jurisdiction of the dispute and shall make every reasonable effort to settle such dispute.

3. The National Mediation Board shall furnish the Panel stenographic, investigative, and such other facilities as may be necessary; and within the limits of the funds provided, and upon the certification of the Chairman of the Panel, shall make such other disbursements as are necessary to effectuate this Order.

AMENDING EXECUTIVE ORDER NO. 8197 OF JULY 11, 1939. PRESCRIBING REGULATIONS PERTAINING TO THE ADMINISTRATION OF THE ACT OF MAY 3, 1939

Executive Order No. 8197 of July 11, 1939 (4 F.R. 2953), is hereby amended to read as follows:

By virtue of the power vested in me as President of the United States, and by the act approved May 3, 1939, entitled "An Act to amend the Act entitled 'An Act authorizing the temporary detail of United States employees, possessing special qualifications, to governments of American republics and the Philippines, and for other purposes', approved May 25, 1938" (53 Stat. 652), I hereby authorize and direct the Secretary of State to administer the said act of May 3, 1939, in accordance with the following regulations:

1. Only officers and employees of the Government of the United States possessing special scientific or other technical or professional qualifications shall be assigned under the said act, and no assignment shall be effected except at the formal request of the foreign government concerned and in agreement therewith.

2. No officer or employee shall be assigned under any government other than the governments of the other American republics, the Commonwealth of the Philippines, and Liberia; and all references in this order to foreign governments shall relate only to the said governments.

3. All requests of foreign governments for the loan of the services of officers and employees of the Government of the United States shall be communicated through the diplomatic channel to the Secretary of State.

4. If the Secretary of State considers that it would be in the public interest to comply with the requests, he shall so inform the appropriate department or agency and indicate the number of persons desired by the requesting government and the probable length of the assignment, and shall supply such other information as he may consider pertinent. The department or agency concerned shall submit to the Secretary of State the name or names of any of its officers or employees whose services are available, together with information respecting their education, previous experience, special qualifications (including language qualifications), basic salaries, family status, and such other information as the department or agency concerned may consider appropriate or as may be requested by the Secretary of State.

5. If, after consultation with the appropriate department or agency, the Secretary of State determines that the request of the foreign government may and should be complied with, he shall inform the requesting government of the names, positions, and qualifications of the personnel available and of the exact period for which their assignment could be authorized, and shall ascertain whether the detail of that personnel would be acceptable to the requesting government. The Secretary of State may, in his discretion, supply the requesting government with an estimate of the expenses involved in the assignment, and request it to indicate whether it desires to reimburse the Government of the United States in whole or in part for such expenses.

6. If personnel having the requisite qualifications are not available, or if the Secretary of State determines that the Government of the United States is unable for any reason to comply with the request of a foreign government, he shall so inform the requesting government.

7. The Secretary of State may, when he deems it in the public interest, accept such advances of funds as the foreign government concerned may express a desire to offer for use by the Government of the United States to pay the expenses of such detail in whole or in part, and the amount so received shall be transferred to the Secretary of the Treasury to be established as a trust fund, to be available for the purposes and under the provisions of the said act until the ter-

mination of the detail; and any unused balance of the trust fund shall be returned to the government making the advance.

8. All officers and employees detailed pursuant to the provisions of the said act shall receive from the department or agency in which they are employed reimbursement for travel expenses to and from the place of detail, and a monthly allowance determined by the Secretary of State to be adequate for quarters and subsistence; and if, in the opinion of the Secretary of State, the duties to be performed under the assignment render it necessary, officers and employees so detailed may also receive additional compensation from such department or agency in amounts to be determined by the Secretary of State but not to exceed 50 percent of the amounts of compensation they were receiving as officers or employees of the United States at the time of the assignment. Such monthly allowance and additional compensation shall be paid only for the period the officer or employee is actually in the foreign country serving under his assignment.

9. No officer or employee detailed pursuant to the provisions of the said act shall perform any services not contemplated by his assignment, and no such officer or employee shall receive any monthly allowance or additional compensation not authorized in accordance with these regulations.

By virtue of the authority vested in me by the Constitution, by the First War Powers Act, 1941, by the Trading with the enemy Act of October 6, 1917, as amended, and as President of the United States, it is hereby ordered as follows:

Executive Order No. 9095 of March 11, 1942, is amended to read as follows:

1. There is hereby established in the Office for Emergency Management of the Executive Office of the President the Office of Alien Property Custodian, at the head of which shall be an Alien Property Custodian appointed by the President. The Alien Property Custodian shall receive compensation at such rate as the President shall approve and in addition shall be entitled to actual

and necessary transportation, subsistence, and other expenses incidental to the performance of his duties. Within the limitation of such funds as may be made available for that purpose, the Alien Property Custodian may appoint assistants and other personnel and delegate to them such functions as he may deem necessary to carry out the provisions of this Executive Order.

2. The Alien Property Custodian is authorized and empowered to take such action as he deems necessary in the national interest, including, but not limited to, the power to direct, manage, supervise, control or vest, with respect to:

(a) any business enterprise within the United States which is a national of a designated enemy country and any property of any nature whatsoever owned or controlled by, payable or deliverable to, held on behalf of or on account of or owing to or which is evidence of ownership or control of any such business enterprise, and any interest of any nature whatsoever in such business enterprise held by an enemy country or national thereof;

(b) any other business enterprise within the United States which is a national of a foreign country and any property of any nature whatsoever owned or controlled by, payable or deliverable to, held on behalf of or on account of or owing to or which is evidence of ownership or control of any such business enterprise, and any interest of any nature whatsoever in such business enterprise held by a foreign country or national thereof, when it is determined by the Custodian and he has certified to the Secretary of the Treasury that it is necessary in the national interest, with respect to such business enterprise, either (i) to provide for the protection of the property, (ii) to change personnel or supervise the employment policies, (iii) to liquidate, reorganize, or sell, (iv) to direct the management in respect to operations, or (v) to vest;

(c) any other property within the United States owned or controlled by a designated enemy country or national thereof, not including in such other property, however, cash, bullion, moneys, currencies, deposits, credits, credit instruments, foreign exchange and securities except to the extent that the Alien Property Custodian determines that such cash, bullion, moneys, currencies, de-

posits, credits, credit instruments, foreign exchange and securities are necessary for the maintenance or safeguarding of other property belonging to the same designated enemy country or the same national thereof and subject to vesting pursuant to section 2 hereof;

(d) any patent, patent application, design patent, design patent application, copyright, copyright application, trademark or trademark application or right related thereto in which any foreign country or national thereof has any interest and any property of any nature whatsoever (including, without limitation, royalties and license fees) payable or held with respect thereto, and any interest of any nature whatsoever held therein by any foreign country or national thereof;

(e) any ship or vessel or interest therein, in which any foreign country or national thereof has an interest; and

(f) any property of any nature whatsoever which is in the process of administration by any person acting under judicial supervision or which is in partition, libel, condemnation or other similar proceedings and which is payable or deliverable to, or claimed by, a designated enemy country or national thereof. When the Alien Property Custodian determines to exercise any power and authority conferred upon him by this section with respect to any of the foregoing property over which the Secretary of the Treasury is exercising any control and so notifies the Secretary of the Treasury in writing, the Secretary of the Treasury shall release all control of such property, except as authorized or directed by the Alien Property Custodian.

3. Subject to the provisions of this Executive Order, all powers and authority conferred upon me by sections 3 (a) and 5 (b) of the Trading with the enemy Act, as amended, are hereby delegated to the Secretary of the Treasury or any person, agency, or instrumentality designated by him; *provided, however*, that when any property or interest, not belonging to a foreign government or central bank, shall be vested by the Secretary of the Treasury, such property or interest shall be vested in, and dealt with by, the Alien Property Custodian upon the terms directed by the Secretary of the Treasury. Except as otherwise provided herein, this Executive Order shall not be deemed to modify or amend Executive Order No. 8389, as amended, or the President's

Proclamation of July 17, 1941, or Executive Order No. 8839, as amended, or the regulations, rulings, licenses and other action taken thereunder, or in connection therewith.

4. Without limitation as to any other powers or authority of the Secretary of the Treasury or the Alien Property Custodian under any other provision of this Executive Order, the Secretary of the Treasury and the Alien Property Custodian are authorized and empowered, either jointly or severally, to prescribe from time to time, regulations, rulings, and instructions to carry out the purposes of this Executive Order. The Secretary of the Treasury and the Alien Property Custodian each shall make available to the other all information in his files to enable the other to discharge his functions, and shall keep each other currently informed as to investigations being conducted with respect to enemy ownership or control of business enterprises within the United States.

5. The Alien Property Custodian is authorized to issue appropriate regulations governing the service of process or notice upon any person within any designated enemy country or any enemy-occupied territory in connection with any court or administrative action or proceeding within the United States. The Alien Property Custodian also is authorized to take such other and further measures in connection with representing any such person in any such action or proceeding as in his judgment and discretion is or may be in the interest of the United States. If, as a result of any such action or proceeding, any such person obtains, or is determined to have, an interest in any property (including money judgments), such property, less an amount equal to the costs and expenses incurred by the Alien Property Custodian in such action or proceeding, shall be subject to the provisions of Executive Order No. 8389, as amended, *provided, however*, that this shall not be deemed to limit the powers of the Alien Property Custodian under section 2 of this Order; and *provided further*, that the Alien Property Custodian may vest an amount of such property equal to the costs and expenses incurred by the Alien Property Custodian in such action or proceeding.

6. To enable the Alien Property Custodian to carry out his functions under this Executive Order, there are hereby delegated to the Alien Property Custodian or any person, agency, or instrumen-

talities designated by him all powers and authority conferred upon me by section 5 (b) of the Trading with the enemy Act, as amended, including, but not limited to, the power to make such investigations and require such reports as he deems necessary or appropriate to determine whether any enterprise or property should be subject to his jurisdiction and control under this Executive Order. The powers and authority conferred upon the Alien Property Custodian by Executive Order No. 9142 shall be administered by him in conformity with the provisions of this Executive Order.

7. In the exercise of the authority herein delegated, the Alien Property Custodian shall be subject to the provisions of Executive Order No. 8839 of July 30, 1941, and shall designate a representative to the Board of Economic Warfare in accordance with section 6 thereof.

In the event of disagreement concerning the transfer of any personnel, records, or property, the determination shall be made by the Director of the Bureau of the Budget, pursuant to the formula here prescribed. Any personnel transferred pursuant to this Executive Order shall be transferred without loss of such Civil Service status or eligibility therefor as they may have.

9. This Executive Order shall not be deemed to modify or amend Executive Order No. 8843 of August 9, 1941, and the regulations, rulings, licenses and other action taken thereunder. Any and all action heretofore taken by the Secretary of the Treasury or the Alien Property Custodian, or by any person, agency, or instrumentality designated by either of them, pursuant to sections 3 (a) and 5 (b) of the Trading with the enemy Act, as amended, or pursuant to prior Executive Orders, and any and all action heretofore taken by the Board of Governors of

the Federal Reserve System pursuant to Executive Order No. 8843 of August 9, 1941, are hereby confirmed and ratified.

10. For the purpose of this Executive Order:

(a) The term "designated enemy country" shall mean any foreign country against which the United States has declared the existence of a state of war (Germany, Italy, Japan, Bulgaria, Hungary and Rumania) and any other country with which the United States is at war in the future. The term "national" shall have the meaning prescribed in section 5 of Executive Order No. 8389, as amended, *provided, however*, that persons not within designated enemy countries (even though they may be within enemy-occupied countries or areas) shall not be deemed to be nationals of a designated enemy country unless the Alien Property Custodian determines: (i) that such person is controlled by or acting for or on behalf of (including cloaks for) a designated enemy country or a person within such country; or (ii) that such person is a citizen or subject of a designated enemy country and within an enemy-occupied country or area; or (iii) that the national interest of the United States requires that such person be treated as a national of a designated enemy country. For the purpose of this Executive Order any determination by the Alien Property Custodian that any property or interest of any foreign country or national thereof is the property or interest of a designated enemy country or national thereof shall be final and conclusive as to the power of the Alien Property Custodian to exercise any of the power or authority conferred upon me by section 5 (b) of the Trading with the enemy Act, as amended.

(b) The term "business enterprise within the United States" shall mean any individual proprietorship, partnership, corporation or other organization primarily engaged in the conduct of a business within the United States, and any other individual proprietorship, partnership, corporation or other organization to the extent that it has an established office within the United States engaged in the conduct of business within the United States.

11. The Secretary of the Treasury or the Alien Property Custodian, as the case may be, shall, except as otherwise agreed to by the Secretary of State, consult with the Secretary of State before vesting any property or interest pursuant

to this Executive Order, and the Secretary of the Treasury shall consult with the Secretary of State before issuing any Order adding any additional foreign countries to section 3 of Executive Order No. 8389, as amended.

12. Any orders, regulations, rulings, instructions, licenses or other actions issued or taken by any person, agency or instrumentality referred to in this Executive Order, shall be final and conclusive as to the power of such person, agency or instrumentality to exercise any of the power or authority conferred upon me by sections 3 (a) and 5 (b) of the Trading with the enemy Act, as amended; and to the extent necessary and appropriate to enable them to perform their duties and functions hereunder, the Secretary of the Treasury and the Alien Property Custodian shall be deemed to be authorized to exercise severally any and all authority, rights, privileges and powers conferred on the President by sections 3 (a) and 5 (b) of the Trading with the enemy Act of October 6, 1917, as amended, and by sections 301 and 302 of Title III of the First War Powers Act, 1941, approved December 18, 1941. No person affected by any order, regulation, ruling, instruction, license or other action issued or taken by either the Secretary of the Treasury or the Alien Property Custodian shall be entitled to challenge the validity thereof or otherwise excuse his actions, or failure to act, on the ground that pursuant to the provisions of this Executive Order, such order, regulation, ruling, instruction, license or other action was within the jurisdiction of the Alien Property Custodian rather than the Secretary of the Treasury or vice versa.

13. Any regulations, rulings, instructions, licenses, determinations or other actions issued, made or taken by any agency or person referred to in this Executive Order, purporting to be under the provisions of this Executive Order or any other proclamation, order or regulation, issued under sections 3 (a) or 5 (b) of the Trading with the enemy Act, as amended, shall be conclusively presumed to have been issued, made or taken after appropriate consultation as herein required and after appropriate certification in any case in which a certification is required pursuant to the provisions of this Executive Order.

EXECUTIVE ORDER 9227

AMENDMENT OF EXECUTIVE ORDER NO. 4314 OF SEPTEMBER 25, 1925, ESTABLISHING RULES GOVERNING THE NAVIGATION OF THE PANAMA CANAL AND ADJACENT WATERS

By virtue of and pursuant to the authority vested in me by section 9 of title 2 of the Canal Zone Code, approved June 19, 1934, Executive Order No. 4314 of September 25, 1925, as amended, establishing rules governing the navigation of the Panama Canal and adjacent waters, is hereby further amended as shown below:

1. Rule 30 in Chapter IV of the said Executive order is amended to read as follows:

"Rule 30. *Status and function of pilot.* The pilot assigned to a vessel shall have control of the navigation and movement of such vessel."

2. Chapter VII of the said Executive order, consisting of Rules 89 to 101 thereof, is amended, in accordance with

the provisions of section 10 of title 2 of the Canal Zone Code, as amended by section 1 of the act of June 13, 1940, c. 358, 54 Stat. 387, to read as follows:

"CHAPTER VII—ACCIDENTS AND CLAIMS

"Rule 89. *Injuries to vessels, etc., by reason of passage through locks.* The Governor of The Panama Canal shall promptly adjust and pay damages for injuries to vessels, or to the cargo, crew, or passengers of vessels, which may arise by reason of the passage of such vessels through the locks of the canal under the control of officers or employees of The Panama Canal: *Provided, however,* that no such damages shall be paid in any case wherein the Governor shall find that the injury was proximately caused by the negligence or fault of the vessel, master, crew, or passengers: *Provided further,* that in any case wherein the Governor shall find that the negligence or fault of the vessel, master, crew, or passengers proximately contributed to the injury, he shall diminish the award of damages in proportion to the negligence or fault, as determined by him, attributable to the said vessel, master, crew, or passengers: *And provided further,* that damages shall not be allowed and paid for injuries to any protrusion beyond the side of a vessel, whether such protrusion is permanent or temporary in character. The amounts of the respective awards of damages under this Rule may be adjusted, fixed, and determined by the Governor by mutual agreement, compromise, or otherwise, and such amounts shall be payable promptly out of any moneys appropriated or allotted for the maintenance and operation of the Panama Canal; and acceptance by any claimant of the amount awarded to him shall be deemed to be in full settlement of such claim against the Government of the United States.

"Rule 90. *When vessel deemed passing through locks.* For the purposes of Rule 89, a vessel shall be considered to be passing through the locks of the canal, under the control of officers or employees of The Panama Canal, from the time the first towing line is made fast on board before entrance into the locks and until the towing lines are cast off upon, or immediately prior to, departure from the lock chamber.

"Rule 91. *Action upon claim by claimant who considers himself aggrieved.* With respect to any claim for damages for injuries arising by reason of the passage of any vessel through the locks of

the canal, as provided in Rules 89 and 90, any claimant for damages who considers himself aggrieved by the findings, determination, or award of the Governor, in reference to his claim, may, as provided in section 10 of title 2 of the Canal Zone Code, as amended as aforesaid, bring an action on such claim against The Panama Canal in the United States District Court for the District of the Canal Zone; and in any such action the provisions of said section 10 of title 2, as amended, and the regulations of the President authorized under section 9 of title 2 of the Canal Zone Code, applicable to the determination, adjustment, and payment of such claims for damages, by the Governor, shall be applicable; and any judgment obtained against The Panama Canal shall be paid promptly out of any moneys appropriated or allotted for the maintenance and operation of the Panama Canal.

"Rule 92. *Injuries to vessels, etc., in Canal Zone waters other than locks.* The Governor shall promptly adjust and pay damages for injuries to vessels, or to the cargo, crew, or passengers of vessels which may arise by reason of the presence of such vessels in the waters of the Canal Zone, other than the locks, when the Governor shall find that the injury was proximately caused by negligence or fault on the part of any officer or employee of The Panama Canal acting within the scope of his employment and in the line of his duties in connection with the operation of the canal: *Provided, however,* that when the Governor shall further find that the negligence or fault of the vessel, master, crew, or passengers proximately contributed to the injury, he shall diminish the award of damages in proportion to the negligence or fault, as determined by him, attributable to the said vessel, master, crew, or passengers: *Provided further,* that in the case of any vessel which is required by or pursuant to regulations heretofore or hereafter prescribed under section 9 of title 2 of the Canal Zone Code to have a Panama Canal pilot on duty aboard, no damages shall be adjusted and paid for injuries to any vessel, or to the cargo, crew, or passengers of any such vessel, incurred while the vessel is under way and in motion, unless at the time such injuries are incurred the navigation or movement of the vessel is under the control of a Panama Canal pilot: *And provided further,* that the Governor shall not adjust and pay

under this Rule any claim for damages for injuries in case the amount of the claim exceeds \$60,000, but shall submit such claim to the Congress by a special report containing the material facts and his recommendations thereon. The amounts of the respective awards of damages under this Rule may be adjusted, fixed, and determined by the Governor by mutual agreement, compromise, or otherwise, and such amounts shall be payable promptly out of any moneys appropriated or allotted for the maintenance and operation of the Panama Canal; and acceptance by any claimant of the amount awarded to him shall be deemed to be in full settlement of such claim against the Government of the United States.

"Rule 93. *Prohibition of certain actions upon claims.* Except as otherwise provided in Rule 91, no action for damages for injuries arising in connection with the operation of the canal and by reason of the presence of a vessel in the waters of the Canal Zone shall lie in any court against the United States or The Panama Canal, or against any officer or employee of The Panama Canal: *Provided, however,* that nothing in this Rule shall be construed to prevent or prohibit actions against officers or employees of The Panama Canal for damages for injuries resulting from acts of such officers or employees outside the scope of their employment and not in line with their duties, or from acts of such officers or employees committed or performed with intent to injure the person or property of another.

"Rule 94. *Investigation of accidents involving potential claims.* Whenever, within the waters of the Canal Zone, including the locks of the canal, a vessel, or its cargo, crew, or passengers, meets with an accident or sustains any injury which may be the basis of a claim against The Panama Canal, or inflicts any injury upon any structure, plant, or equipment of The Panama Canal, the Board of Local Inspectors of The Panama Canal, or a member thereof, shall promptly conduct an investigation of such accident or injury, including all the facts and circumstances surrounding it and bearing upon its proximate causation, the nature and extent of the injury, and the amount of the damages, if any, occasioned by such injury, and shall promptly, upon the conclusion of such investigation, transmit to the Governor, for his consideration in connection with any claim

which may arise, a transcript of the record of such investigation, together with its findings and conclusions respecting the accident or injury. All matters pertaining to such investigation shall be completed before the vessel concerned leaves Canal Zone waters, and no claim shall be considered unless the basis therefor has been laid before the Canal authorities prior to the vessel's sailing.

CROSS-REFERENCE

Compelling attendance and testimony of witnesses and production of books and papers before members of board, see Canal Zone Code, title 2, sections 42 and 43.

"Rule 95. *Measure of damages in determining award.* (a) *General.* In determining the amount of the award of damages for injuries to a vessel for which The Panama Canal is found or determined to be liable, there may be included: (1) actual or estimated costs of repairs; (2) charter hire actually lost by the owners or charter hire actually paid, depending upon the terms of the charter party, for the time the vessel is undergoing repairs; (3) maintenance of the vessel and wages of the crew, if such are shown to be actual additional expenses or losses incurred outside of the charter hire; (4) other expenses which are definitely and accurately shown to have been incurred necessarily and by reason of the accident or injuries: *Provided, however,* that there shall not be allowed agent's fees or commissions or other incidental expenses of similar character, or any items which are indefinite, indeterminable, speculative, or conjectural. The Comptroller of The Panama Canal shall be furnished such vouchers, receipts, or other evidence as may be required by him in support of any item of a claim.

(b) *Where vessel not operated under charter.* If a vessel is not operated under charter but by the owner directly, evidence shall be secured, if available, as to the sum for which vessels of the same size and class can be chartered in the market. If such charter value cannot be determined, the value of the use of such vessel to its owner in the business in which it was engaged at the time of the injuries shall be used as a basis for estimating the damage for the vessel's detention; and the books of the owner showing the vessel's earnings about the time of the accident or injuries shall be considered as evidence of probable earn-

ings during the time of detention. If the books are unavailable, such other evidence shall be furnished as may be required by the Comptroller of The Panama Canal.

"Rule 96. *Delays for which no responsibility assumed.* The Panama Canal shall not be responsible, nor consider any claim, for demurrage or delays occasioned by landslides or other natural causes, by necessary construction or maintenance work on canal locks, terminals, or equipment, by obstructions arising from accidents, by time necessary for admeasurement, by congestion of traffic, or by any other cause except as may be specifically set forth in these Rules.

"Rule 97. *Handling of wrecked, injured, or burning vessels.* When a vessel in Canal Zone waters goes aground, or is wrecked, or is so injured that it is liable to become an obstruction in such waters, or is on fire, the Canal authorities shall have the right to supervise and direct, or to take complete charge of and conduct, all operations which may be necessary to float the vessel, to clear the wreckage, to remove the injured vessel to a safe location, or to extinguish the fire, as the case may be. The Canal authorities may, when necessary, take such action without awaiting the permission of the owner or agent of the vessel, and may require the master of the vessel and all persons under his supervision and control to place the vessel, and all equipment on board, at the disposal of the Canal authorities without cost to the Canal. In the event the vessel is subsequently found and determined to be responsible for the accident or the condition necessitating action by The Panama Canal, the necessary expenses incurred by the Canal in carrying out the provisions of this Rule shall be a proper charge against such vessel.

"Rule 98. *Penalty for injuring or obstructing canal.* As provided by section 821 of title 5 of the Canal Zone Code, any person who by any means or in any way injures or obstructs or attempts to injure or obstruct any part of the Panama Canal or the locks thereof or the approaches thereto, shall be punished by imprisonment in the penitentiary for not more than twenty years, or by a fine of not more than \$10,000, or by both. And as provided by section 255 of title 5 of the said Code, if any act in violation of the foregoing provisions of this Rule shall cause the death of any person within a year and a day thereafter, the person so

convicted shall be guilty of murder and shall be punished accordingly.

"Rule 99. *Liability of vessel for injury to Canal structures or equipment.* A vessel, or its owner or operator, shall be held liable for any injury to any structure, plant, or equipment of or pertaining to The Panama Canal when such injury is proximately caused by the negligence or fault of the vessel or its master or crew. No vessel shall make fast, or run any line, to any marker, buoy, beacon, or other aid to navigation; and a vessel shall so navigate as not to strike such aids in passing.

"Rule 100. *Spark and smoke hazard.* While within Canal Zone waters, vessels shall take necessary precaution to avoid the issuance of sparks or excessive smoke, and vessels shall be held liable for injuries caused by the issuance therefrom of sparks or excessive quantities of smoke.

"Rule 101. *Collection of damages from vessel owner.* In case of injury to any Canal structure, plant, or equipment occasioned by a vessel under the circumstances specified in Rules 99 and 100, the matter of damages shall be adjusted by mutual agreement when practicable between The Panama Canal and the owner, agents, or underwriters of the vessel; and in case of disagreement, the vessel or its owner or operator shall be proceeded against in the United States District Court for the District of the Canal Zone."

EXECUTIVE ORDER 9230

AMENDING SECTION 3 OF EXECUTIVE ORDER No. 8743 OF APRIL 23, 1941, EXTENDING THE CLASSIFIED CIVIL SERVICE

By virtue of the authority vested in me by section 1 of the act of November 26, 1940, entitled "Extending the Classified Civil Service of the United States" (54 Stat. 1211), by the Civil Service Act (22 Stat. 403), and by section 1753 of the Revised Statutes of the United States, it is ordered that section 3 of Executive Order No. 8743 of April 23, 1941, extending the classified civil service be, and the same is, hereby amended to read as follows:

Section 3. (a) Upon consideration of the report of the Committee on Civil Service Improvement (House Document No. 118, 77th Congress) appointed by Executive Order No. 8044 of January 31, 1939, it is hereby found and determined that the regulations and procedures hereinafter prescribed in this section with respect to attorney positions in the classified civil service are required by the conditions of good administration.

(b) There is hereby created in the Civil Service Commission (hereinafter referred to as the Commission) a board to be known as the Board of Legal Examiners (hereinafter referred to as the Board). The Board shall consist of the Solicitor General of the United States and the chief law officer of the Civil Service Commission, as members *ex officio*, and nine members to be appointed by the President, four of whom shall be

attorneys chosen from the chief officers of the Executive departments, agencies or corporate instrumentalities of the Government, two from the law-teaching profession, and three from attorneys engaged in private practice. The President shall designate the chairman of the Board. Five members shall constitute a quorum, and the Board may transact business notwithstanding vacancies thereon. Members of the Board shall receive no salary as such, but shall be entitled to necessary expenses incurred in the performance of their duties hereunder.

(c) It shall be the duty of the Board to promote the development of a merit system for the recruitment, selection, appointment, promotion, and transfer of attorneys in the classified civil service in accordance with the general procedures outlined in Plan A of the report of the Committee on Civil Service Improvement, appointed by Executive Order No. 8044 of January 31, 1939.

(d) The Board, in consultation with the Commission, shall determine the regulations and procedures under this section governing the recruitment and examination of applicants for attorney positions, and the selection, appointment, promotion and transfer of attorneys, in the classified service.

(e) The Commission shall in the manner determined by the Board establish a register or registers for attorney positions in the classified service and such positions shall thereafter be filled from such registers as are designated by the Board. Unless otherwise determined by the Board, any register so established shall not be in effect for a period longer than one year from the date of its establishment. Upon request of the Board, the Commission shall appoint regional or local boards of examiners composed of persons approved by the Board, within or without the Federal service, to interview and examine applicants as the Board shall direct.

(f) The number of names to be placed upon any register of eligibles for attorney positions shall be limited to the number recommended by the Board; and such registers shall not be ranked according to the ratings received by the eligibles, except that persons entitled to veterans' preference as defined in section 1 of Civil Service Rule VI shall be appropriately designated thereon.

(g) Any person whose name has been placed upon three registers of eligibles

covering positions of the same grade, and who has not been appointed therefrom, shall not thereafter be eligible for placement upon any subsequently established register covering positions of such grade.

(h) So far as practicable and consistent with good administration, the eligibles on any register for attorney positions and appointments from such register shall be apportioned among the several States and Territories and the District of Columbia upon the basis of population as ascertained in the last preceding census. The Commission shall certify to the appointing officer for each vacancy all the eligibles on the appropriate register except those whose appointment would, in the determination of the Board, be inconsistent with the apportionment policy herein prescribed. The appointing officer shall make selections for any vacancy or vacancies in attorney positions from the register so certified, with sole reference to merit and fitness.

(i) Any position affected by this section may be filled before appropriate registers have been established pursuant to this section only by a person whose appointment is approved by the Board. The Board may require as a condition of its approval that persons thus proposed for appointment pass a noncompetitive examination and may designate examining committees composed of persons within or without the Federal service to conduct such examinations. Persons whose appointment was approved by the Board prior to March 16, 1942, and who pass a noncompetitive examination prescribed by the Board shall be eligible for a classified civil-service status after the expiration of six months from the date of appointment upon compliance with the provisions of Section 6 of Civil Service Rule II other than those provisions relating to examination. Effective March 16, 1942, all appointments to attorney and law clerk (trainee) positions shall be for the duration of the present war and for six months thereafter unless specifically limited to a shorter period.

(j) The incumbent of any attorney position covered into the classified service by section 1 of this order may acquire a classified civil-service status in accordance with the provisions of Section 2 (a) of the act of November 26, 1940 (54 Stat. 1211) or, in the discretion of the Board and when applicable, Section 6 of Civil Service Rule II: *Provided*,

That the noncompetitive examination required thereunder shall be prescribed by the Commission with the approval of the Board.

(k) The Commission with the approval of the Board shall appoint a competent person to act as Executive Secretary to the Board; and the Commission shall furnish such further professional, clerical, stenographic, and other assistants as may be necessary to carry out the provisions of this section.

WHEREAS I find that by reason of the foregoing an extraordinary emergency exists:

NOW, THEREFORE, by virtue of the authority vested in me by section 1 of the said act of August 1, 1892, as amended by the said act of March 3, 1913, and as President of the United States, I hereby suspend, for the duration of the emergencies proclaimed by me on September 8, 1939 and May 27, 1941, the above-mentioned provisions of law prohibiting more than eight hours labor in any one day of laborers and mechanics employed by the Government of the United States as to all work performed by laborers and mechanics employed by the Department of the Interior in the construction and reconditioning, respectively, of the Glenn and Richardson Highways in the Territory of Alaska, and by the Federal Works Agency in the construction of the Alaska-Canada Highway in the Territory of Alaska: *Provided*, that the wages of all laborers and mechanics employed by the Department of the Interior or by the Federal Works Agency upon such projects shall be computed on a basic day rate of eight hours of work with overtime rates to be paid at not less than time and one-half the basic rate of pay for all hours of work in excess of eight hours in any one day.

3. All records and property (including office equipment, contracts, agreements, and leased office space) used primarily in the administration of any agency, function, duty, or power transferred by this order, and all personnel used primarily in the administration of such agencies, functions, duties, and powers (including officers whose chief duties relate to such administration) are transferred to the War Manpower Commission for use in the administration of the agencies, functions, duties, and powers transferred by this order. So much of the unexpended balances of appropriations, allocations, or other funds available for the use of any agency in the exercise of any function, duty, or power transferred by this order or for the use of the head of any agency in the exercise of any function, duty, or power so transferred, as the Director of the Bureau of the Budget shall determine, shall be transferred to the War Manpower Commission, for use in connection with the exercise of functions, duties, and powers so transferred. In determining the amounts to be transferred, the Director of the Bureau of the Budget may include an amount to provide for the liquidation of obligations incurred against such appropriations, allocations, or other funds prior to the transfer.

4. In order to maintain, to the maximum extent consistent with the effective prosecution of the war, the essential coordination and integration of public employment service and unemployment compensation functions, and to avoid any necessity for establishing duplicate public employment office facilities, the Chairman of the War Manpower Commission is directed to provide for making available to agencies charged with the administration of unemployment compensation laws, such services, information, and facilities by the United States Employment Service and its public employment offices as the Chairman of the War Manpower Commission finds will not be inconsistent with the effective prosecution of the war and as the Social Security Board finds necessary for the proper and efficient administration of such unemployment compensation laws.

THE WHITE HOUSE,

EXECUTIVE ORDER 9250**PROVIDING FOR THE STABILIZING OF THE NATIONAL ECONOMY**

By virtue of the authority vested in me by the Constitution and the Statutes, and particularly by the Act of October 2, 1942, entitled "An Act to Amend the Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes", as President of the United States and Commander in Chief of the Army and Navy, and in order to control so far as possible the inflationary tendencies and the vast dislocations attendant thereon which threaten our military effort and our domestic economic structure, and for the more effective prosecution of the war, it is hereby ordered as follows:

TITLE I—ESTABLISHMENT OF AN OFFICE OF ECONOMIC STABILIZATION

1. There is established in the Office for Emergency Management of the Executive Office of the President an Office of Economic Stabilization at the head of which shall be an Economic Stabilization Director (hereinafter referred to as the Director).

2. There is established in the Office of Economic Stabilization an Economic Stabilization Board with which the Director shall advise and consult. The Board shall consist of the Secretary of the Treasury, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Chairman of the Board of Governors of the Federal Reserve System, the Director of the Bureau of the Budget, the Price Administrator, the Chairman of the National War Labor Board, and two representatives each of labor, management, and farmers to be appointed by the President. The Director may invite for consultation the head of any other department or agency. The Director shall serve as Chairman of the Board.

3. The Director, with the approval of the President, shall formulate and develop a comprehensive national economic policy relating to the control of civilian purchasing power, prices, rents, wages, salaries, profits, rationing, subsidies, and all related matters—all for the purpose of preventing avoidable increases in the cost of living, cooperating in minimizing the unnecessary migration of labor from one business, industry, or region to another, and facilitating the prosecution of the war. To give effect to this comprehensive national economic policy the Director shall have power to issue directives on policy to the Federal departments and agencies concerned.

4. The guiding policy of the Director and of all departments and agencies of the Government shall be to stabilize the cost of living in accordance with the Act of October 2, 1942; and it shall be the duty and responsibility of the Director and of all departments and agencies of the Government to cooperate in the execution of such administrative programs and in the development of such legislative programs as may be necessary to that end. The administration of activities related to the national economic policy shall remain with the departments and agencies now responsible for such activities, but such administration shall conform to the directives on policy issued by the Director.

TITLE II—WAGE AND SALARY STABILIZATION POLICY

1. No increases in wage rates, granted as a result of voluntary agreement, collective bargaining, conciliation, arbitration, or otherwise, and no decreases in

wage rates, shall be authorized unless notice of such increases or decreases shall have been filed with the National War Labor Board, and unless the National War Labor Board has approved such increases or decreases.

2. The National War Labor Board shall not approve any increase in the wage rates prevailing on September 15, 1942, unless such increase is necessary to correct maladjustments or inequalities, to eliminate substandards of living, to correct gross inequities, or to aid in the effective prosecution of the war.

Provided, however, that where the National War Labor Board or the Price Administrator shall have reason to believe that a proposed wage increase will require a change in the price ceiling of the commodity or service involved, such proposed increase, if approved by the National War Labor Board, shall become effective only if also approved by the Director.

3. The National War Labor Board shall not approve a decrease in the wages for any particular work below the highest wages paid therefor between January 1, 1942 and September 15, 1942, unless to correct gross inequities and to aid in the effective prosecution of the war.

4. The National War Labor Board shall, by general regulation, make such exemptions from the provisions of this title in the case of small total wage increases or decreases as it deems necessary for the effective administration of this Order.

5. No increases in salaries now in excess of \$5,000 per year (except in instances in which an individual has been assigned to more difficult or responsible work), shall be granted until otherwise determined by the Director.

6. No decrease shall be made in the salary for any particular work below the highest salary paid therefor between January 1, 1942 and September 15, 1942 unless to correct gross inequities and to aid in the effective prosecution of the war.

7. In order to correct gross inequities and to provide for greater equality in contributing to the war effort, the Director is authorized to take the necessary action, and to issue the appropriate regulations, so that, insofar as practicable, no salary shall be authorized under Title III, Section 4 to the extent that it exceeds \$25,000 after the payment of taxes allocable to the sum in excess of \$25,000. Provided, however, that such regulations

shall make due allowance for the payment of life insurance premiums on policies heretofore issued, and required payments on fixed obligations heretofore incurred, and shall make provision to prevent undue hardship.

8. The policy of the Federal Government, as established in Executive Order No. 9017 of January 12, 1942, to encourage free collective bargaining between employers and employees is reaffirmed and continued.

9. Insofar as the provisions of Clause (1) of section 302 (c) of the Emergency Price Control Act of 1942 are inconsistent with this Order, they are hereby suspended.

TITLE III—ADMINISTRATION OF WAGE AND SALARY POLICY

1. Except as modified by this Order, the National War Labor Board shall continue to perform the powers, functions, and duties conferred upon it by Executive Order No. 9017, and the functions of said Board are hereby extended to cover all industries and all employees. The National War Labor Board shall continue to follow the procedures specified in said Executive Order.

2. The National War Labor Board shall constitute the agency of the Federal Government authorized to carry out the wage policies stated in this Order, or the directives on policy issued by the Director under this Order. The National War Labor Board is further authorized to issue such rules and regulations as may be necessary for the speedy determination of the propriety of any wage increases or decreases in accordance with this Order, and to avail itself of the services and facilities of such State and Federal departments and agencies as, in the discretion of the National War Labor Board, may be of assistance to the Board.

3. No provision with respect to wages contained in any labor agreement between employers and employees (including the Shipbuilding Stabilization Agreements as amended on May 16, 1942, and the Wage Stabilization Agreement of the Building Construction Industry arrived at May 22, 1942) which is inconsistent with the policy herein enunciated or hereafter formulated by the Director shall be enforced except with the approval of the National War Labor Board within the provisions of this Order. The National War Labor Board shall permit the Shipbuilding Stabilization Committee and the Wage Adjustment Board for the Build-

ing Construction Industry, both of which are provided for in the foregoing agreements, to continue to perform their functions therein set forth, except insofar as any of them is inconsistent with the terms of this Order.

4. In order to effectuate the purposes and provisions of this Order and the Act of October 2, 1942, any wage or salary payment made in contravention thereof shall be disregarded by the Executive Departments and other governmental agencies in determining the costs or expenses of any employer for the purpose of any law or regulation, including the Emergency Price Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the Revenue Laws of the United States or for the purpose of determining costs or expenses under any contract made by or on behalf of the Government of the United States.

TITLE IV—PRICES OF AGRICULTURAL COMMODITIES

1. The prices of agricultural commodities and of commodities manufactured or processed in whole or substantial part from any agricultural commodity shall be stabilized, so far as practicable, on the basis of levels which existed on September 15, 1942 and in compliance with the Act of October 2, 1942.

2. In establishing, maintaining or adjusting maximum prices for agricultural commodities or for commodities processed or manufactured in whole or in substantial part from any agricultural commodity, appropriate deductions shall be made from parity price or comparable price for payments made under the Soil Conservation and Domestic Allotment Act, as amended, parity payments made under the Agricultural Adjustment Act of 1938, as amended, and governmental subsidies.

3. Subject to the directives on policy of the Director, the price of agricultural commodities shall be established or maintained or adjusted jointly by the Secretary of Agriculture and the Price Administrator; and any disagreement between them shall be resolved by the Director. The price of any commodity manufactured or processed in whole or in substantial part from an agricultural commodity shall be established or maintained or adjusted by the Price Administrator, in the same administrative manner provided for under the Emergency Price Control Act of 1942.

4. The provisions of sections 3 (a) and 3 (c) of the Emergency Price Control Act of 1942 are hereby suspended to the extent that such provisions are inconsistent with any or all prices established under this Order for agricultural commodities, or commodities manufactured or processed in whole or in substantial part from an agricultural commodity.

TITLE V—PROFITS AND SUBSIDIES

1. The Price Administrator in fixing, reducing, or increasing prices, shall determine price ceilings in such a manner that profits are prevented which in his judgment are unreasonable or exorbitant.

2. The Director may direct any Federal department or agency including, but not limited to, the Department of Agriculture (including the Commodity Credit Corporation and the Surplus Marketing Administration), the Department of Commerce, the Reconstruction Finance Corporation, and other corporations organized pursuant to Section 5d of the Reconstruction Finance Corporation Act, as amended, to use its authority to subsidize and to purchase for resale, if such measures are necessary to insure the maximum necessary production and distribution of any commodity, or to maintain ceiling prices, or to prevent a price rise inconsistent with the purposes of this Order.

TITLE VI—GENERAL PROVISIONS

1. Nothing in this Order shall be construed as affecting the present operation of the Fair Labor Standards Act, the National Labor Relations Act, the Walsh-Healey Act, the Davis-Bacon Act, or the adjustment procedure of the Railway Labor Act.

2. Salaries and wages under this Order shall include all forms of direct or indirect remuneration to an employee or officer for work or personal services performed for an employer or corporation, including but not limited to, bonuses, additional compensation, gifts, commissions, fees, and any other remuneration in any form or medium whatsoever, (excluding insurance and pension benefits in a reasonable amount as determined by the Director); but for the purpose of determining wages or salaries for any period prior to September 16,

1942, such additional compensation shall be taken into account only in cases where it has been customarily paid by employers to their employees. "Salaries" as used in this Order means remuneration for personal services regularly paid on a weekly, monthly or annual basis.

3. The Director shall, so far as possible, utilize the information, data, and staff services of other Federal departments and agencies which have activities or functions related to national economic policy. All such Federal departments and agencies shall supply available information, data, and services required by the Director in discharging his responsibilities.

4. The Director shall be the agency to receive notice of any increase in the rates or charges of common carriers or other public utilities as provided in the aforesaid Act of October 2, 1942.

5. The Director may perform the functions and duties, and exercise the powers, authority, and discretion conferred upon him by this Order through such officials or agencies, and in such manner, as he may determine. The decision of the Director as to such delegation and the manner of exercise thereof shall be final.

6. The Director, if he deems it necessary, may direct that any policy formulated under this Order shall be enforced by any other department or agency under any other power or authority which may be provided by any of the laws of the United States.

7. The Director, who shall be appointed by the President, shall receive such compensation as the President shall provide, and within the limits of funds which may be made available, may employ necessary personnel and make provision for supplies, facilities and services necessary to discharge his responsibilities.

EXECUTIVE ORDER 9251

SUSPENSION OF EIGHT-HOUR LAW AS TO
LABORERS AND MECHANICS EMPLOYED BY
THE CIVIL AERONAUTICS ADMINISTRATION
IN THE CONSTRUCTION OF PUBLIC WORKS
WHICH ARE NECESSARY FOR THE SUCCESS-
FUL PROSECUTION OF THE WAR

WHEREAS the Civil Aeronautics Administration is engaged in construction

of landing areas and air navigation facilities and other public works which are necessary for the successful prosecution of the war; and

WHEREAS the successful prosecution of the war requires the completion of such public works at the earliest practicable date; and

WHEREAS by section 1 of the act of August 1, 1892, 27 Stat. 340, as amended by the act of March 3, 1913, 37 Stat. 726, (U.S.C., Title 40, section 321) the service of all laborers and mechanics employed by the Government upon any public work of the United States is limited to eight hours in any one day, except in case of extraordinary emergency; and

WHEREAS it appears that unless the eight-hour limitation is suspended as to laborers and mechanics employed by the Civil Aeronautics Administration in the construction of the foregoing public works, it will be impossible because of the acute shortage of skilled mechanics and laborers to accomplish the work necessary to the completion of such public works within the time required by the interests of the war effort; and

WHEREAS I find that by reason of the foregoing an extraordinary emergency exists:

NOW, THEREFORE, by virtue of the authority vested in me by section 1 of the said act of August 1, 1892, as amended by the said act of March 3, 1913, and as President of the United States, I hereby suspend, for the duration of the emergencies proclaimed by me on September 8, 1939 and May 27, 1941, the above-mentioned provisions of law prohibiting more than eight hours labor in any one day of laborers and mechanics employed by the Government of the United States as to all work performed by laborers and mechanics employed by the Civil Aeronautics Administration and engaged in the construction of such landing areas, air navigation facilities, and other public works as the Administrator of Civil Aeronautics may from time to time specify as requiring, in the interest of the war effort, work in excess of eight hours per day: *Provided*, That the wages of all laborers and mechanics employed by the Government upon projects so specified by the Administrator of Civil Aeronautics shall be computed on a basic day rate of eight hours of work with overtime rates to be paid at time and one-half the basic

rate of pay for all hours of work in excess of eight hours in any one day.

EXECUTIVE ORDER 9252

APPROVING REGULATIONS OF THE CIVIL SERVICE COMMISSION RELATING TO EFFICIENCY-RATING BOARDS OF REVIEW

By virtue of the authority vested in me by section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by Title V of the Act of June 30, 1932 (47 Stat. 416), by section 7, Title II of the Act of November 26, 1940 (54 Stat. 1215), and by section 3 of the Act of August 1, 1941 (55 Stat. 614), I hereby approve the following regulations prescribed by the Civil Service Commission:

REGULATIONS RELATING TO EFFICIENCY RATING BOARDS OF REVIEW

Pursuant to the authority vested in the Civil Service Commission by section 9 of the Classification Act of 1923 (42 Stat. 1490), as amended by Title V of the Act of June 30, 1932 (47 Stat. 416), by section 7, Title II of the Act of November 26, 1940 (54 Stat. 1215), and by section 3 of the Act of August 1, 1941 (55 Stat. 614), the following regulations are hereby prescribed with respect to efficiency rating boards of review:

1. There shall be established in each department and independent establishment having positions and employees subject to section 9 of the Classification Act of 1923, as amended, one or more boards of review for the purpose of considering and passing upon the merits of efficiency ratings assigned to such employees.

2. The head of each department or independent establishment shall determine the number and jurisdiction of boards of review to be established within his department or establishment, subject to the approval of the Civil Service Commission. The jurisdiction of each board of review shall be specific and shall be exclusive of that of any other such board.

3. (a) Each board of review shall be composed of three members, and there shall be an alternate member provided

for each principal member who shall serve during the absence of such principal member or when the principal member is unable to serve for any other reason and who shall succeed the principal member in the event that he is unable to serve to the end of his term of office. Where necessary in the interest of good administration, and in order to expedite the consideration of cases, an additional alternate member may be designated for each principal member. Members of boards of review and alternate members shall be appointed or designated for terms expiring June 30 subsequent to their appointment or designation, provided that they may continue to serve until their successors are appointed or designated.

(b) One member of each board of review and alternates to such member (to be known as department member and alternate department members) shall be designated by the head of the department or establishment served by such board.

(c) Another member of each board of review and alternates to such member (to be known as employee member and alternate employee members) shall be designated by election, to be held between April 1 and July 1 of each calendar year for the term beginning on July 1 of such year, by the employees whose efficiency ratings are under the jurisdiction of the board in such manner as shall be determined by the Civil Service Commission. Upon the request of the head of a department or establishment or of ten per cent of the employees whose efficiency ratings are subject to review by a board of review, the Civil Service Commission may order an election for employee members and alternate employee members at a different time or may authorize the definite or indefinite postponement of the regular annual election.

(d) Chairmen and alternate chairmen for the boards of review shall be designated by the Civil Service Commission.

(e) All members of boards of review and all alternate members shall be officers or employees of the executive branch of the Federal government; provided, however, that in the case of boards of review serving agencies not in the executive branch, such members and alternate members (except chairmen and alternate chairmen) shall be appointed or elected

from the branch of government to which such agencies respectively belong.

4. Each appeal from an efficiency rating shall be submitted in writing to the chairman of the appropriate board of review within ninety days of the date that notice of such rating was delivered to the employee. Boards of review may waive this requirement for good and sufficient reasons, as in cases (a) where it appears that appellants were not in a position to make an appeal within the ninety-day period, (b) where employees elected to avail themselves of the grievance procedures in their own departments or establishments before proceeding with appeals under these regulations, or (c) where new evidence is discovered after the close of the ninety-day period which would have a bearing on the decision concerning the appeal. On the request of the Civil Service Commission, certified in writing, efficiency ratings which require the dismissal, demotion, or reduction in salary of employees subject to the approval of the Civil Service Commission under section 9 of the Classification Act of 1923 as amended shall be considered by boards of review in the same manner as if appealed by such employees.

5. Hearings conducted on efficiency-rating appeals and certified cases shall be on as informal a basis as possible and yet permit the presentation of all information necessary to ascertain the correctness of the rating in question or the rating which should be assigned the employee. An oral hearing may be waived by the appellant, or employee whose rating is certified for review, and the board of review may thereupon proceed to a consideration of the case on the basis of written evidence submitted by the parties. Stenographic reports of oral hearings shall be required only when it is determined by the unanimous vote of the board that they are necessary to the best interests of the Government and employee. In all proceedings before boards of review, each employee whose efficiency rating is under consideration shall be entitled to have a representative of his own selection; and at oral hearings each appellant or employee whose rating is certified for review shall be entitled to appear with his representative. The appellant, or employee whose rating is certified for review, and his representative, and such representatives of the depart-

ment or establishment as are designated by the head thereof, shall be afforded an opportunity to submit orally or in writing any information deemed by the board of review to be pertinent to the case, and shall be afforded an opportunity to hear or examine, and to reply to, information submitted to such board by other parties.

6. After ascertaining the pertinent facts in each case, the board of review shall proceed to determine such adjustment in the efficiency rating as it deems proper, or sustain the efficiency rating appealed from without change. Decisions shall be made by a majority vote. Notices of decisions of boards of review shall be communicated to the heads of the departments or independent establishments and to the appellants, and employees whose ratings are certified for review, in writing and shall contain summary statements of the facts on which the decisions are based. Copies of the decisions of the boards shall also be forwarded to the Civil Service Commission.

7. These regulations apply with full force and effect to the administration of efficiency-rating boards of review in the departmental service. Until such time as the Civil Service Commission, after consultation with heads of departments and independent establishments, decides that it is practicable to extend the foregoing provisions in their full force and effect to the field services, efficiency-rating appeals from employees in the field services may be made to boards of review established in and for the departmental headquarters of said field services for adjudication on the basis of evidence submitted in writing.

8. These regulations supersede the regulations in Executive Order No. 8748 of May 1, 1941, and in Executive Order No. 9155 of May 1, 1942, and shall be effective immediately, except that the provision in Section 3 above authorizing members of boards of review to serve until their successors are appointed or designated shall be effective retroactively to July 1, 1941.

By virtue of and pursuant to the authority vested in me by section 6 of the Pay Readjustment Act of 1942, approved June 16, 1942 (Public Law 607—77th Cong.), I hereby prescribe the following regulations governing the payment of rental allowances to officers of the Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service, including adjunct forces thereof.

I. Definitions. As used in these regulations or in regulations prescribed pursuant hereto:

(a) The terms "on active duty" and "entitled to active-duty pay", shall apply to an officer while on the active list or while required to perform duty in accordance with law for which he is entitled to active-duty pay: *Provided*, that such terms shall not apply to any officer while absent from duty under conditions which, under the laws governing the particular service concerned, would prevent him from receiving full pay.

(b) The term "field duty" shall mean service, under orders, with troops operating against an enemy, actual or potential.

(c) The term "sea duty" shall mean service at sea by an officer on a vessel under orders (1) requiring the officer to report for duty on board a designated vessel or (2) assigning him to duty in command of vessels or as a member of the staff of an officer in command of vessels: *Provided*, that the officer concerned is not during the same period required to render service on shore of a character determined by the department concerned to be paramount to the duty which he is required to render at sea.

(e) The terms "competent superior authority" and "competent authority" shall mean the officer required by regulations of the department concerned to assign public quarters.

(c) Any unassigned quarters at a post, yard, or station may, with the permission of competent superior authority and so long as not needed for assignment to officers on permanent duty thereat, be occupied by officers not permanently stationed thereat, but no officer unaccompanied by dependents shall be permitted to occupy as quarters at a post, yard, or station other than his permanent station more than one room and a bath.

III. Payments.—(a) Payment of the money allowance for rental of quarters to the officers entitled thereto shall be made periodically by appropriate disbursing officers upon submission of the evidence necessary to substantiate the payee's right to such allowance.

(b) No officer shall be paid a rental allowance for any period during which he is assigned quarters at his permanent station which have been determined to be adequate in accordance with regulations prescribed by the head of the department concerned.

TERMINATION AND LIQUIDATION OF THE ELECTRIC HOME AND FARM AUTHORITY

By virtue of the authority vested in me by section 1 of the act of Congress approved March 31, 1936, 49 Stat. 1186, as amended, and as President of the United States, it is ordered as follows:

1. By virtue of the authority vested in me by section 44 of the Criminal Code, as amended (U.S.C., title 18, sec. 96), the following-described area is hereby established and reserved, for purposes of national defense, as a defensive sea area, to be known as "Buzzards Bay and Vineyard Sound Defensive Sea Area":

All United States territorial waters of Buzzards Bay and Vineyard Sound and their seaward approaches and tributaries from the contour line of extreme high water on the shores of these waters as shown on the latest U.S.C.&G.S. Charts to:

A line running from the southernmost tip of Sakonnet Point;

thence to Bell buoy #2 off Schuyler Ledge in approximate position Latitude 41° 26' 24" North, Longitude 71° 11' 39" West;

thence on a line due south to approximate position Latitude 41° 18' 03" North, Longitude 71° 11' 39" West;

thence due east to the southernmost tip of Squibnocket Point on Martha's Vineyard;

thence along the western and northern shore line of Martha's Vineyard to West Chop Light;

Such permission for entry into or navigation through or within the said Area must be obtained in advance of entry, preferably by application at a United States Naval District Headquarters prior to leaving port of origin of voyage, or by radio or visual communication on approaching the seaward limits of the Area. If radio telegraphy is used, the call "NQO" shall be made on a frequency of 500 kcs., and permission to enter the port requested. The name of the vessel, purpose of entry, and name of the master must be given in the request, which should be addressed to the Commandant of the Naval District or his local representative as may be designated and published in local regulations issued by the District Commandant. If visual communications are used, the procedure shall be essentially the same.

A vessel entering or navigating the waters of the Buzzards Bay and Vineyard Sound Defensive Sea Area does so at its own risk.

Even though permission has been obtained, it is incumbent upon a vessel entering the Buzzards Bay and Vineyard Sound Defensive Sea Area to obey any further instructions received from the United States Navy, or other United States authority.

The movements of vessels within the Buzzards Bay and Vineyard Sound Defensive Sea Area shall be subject to supervision, either through surface craft or aircraft. Such controlling surface

craft or aircraft shall be identified by a prominent display of the Union Jack.

In the event that a United States Maritime Control Area is established adjacent to or abutting upon the above-established defensive sea area, permission to enter, and other instructions issued by proper authority, shall apply to any one continuous passage through or within both areas.

Any master of a vessel or other person within the Buzzards Bay and Vineyard Sound Defensive Sea Area who disregards these regulations, or fails to obey an order of United States Naval authority to stop or heave to, or performs any act threatening the efficiency of mine or other defenses or the safety of navigation, or takes any action inimical to the interests of the United States, may be detained therein by force of arms and shall be liable to attack by United States armed forces, and liable to prosecution as provided for in section 44 of the Criminal Code as amended (U.S.C., title 18, sec. 96).

All United States Government authorities shall place at the disposal of the Naval authorities their facilities for aiding in the enforcement of these regulations. The Governor of the State of Massachusetts, the local municipal authorities, and the local civilian defense agencies are called upon to render the local Naval authorities all possible assistance in the enforcement of these regulations.

These regulations are subject to amplification by the local United States Naval authority as necessary to meet local circumstances and conditions.

The Secretary of the Navy is charged with the publication and enforcement of these regulations.

e. Compile data and make continuing surveys with respect to the effect of the prices charged for petroleum upon the efficient wartime operations of the petroleum industry and the maintenance of adequate supplies of petroleum for war and essential industrial and civilian uses. On the basis of such surveys, the Petroleum Administrator shall consult with and recommend to the Administrator, Office of Price Administration, such upward or downward adjustments in the schedule of prices charged for petroleum as will, in the judgment of the Petroleum Administrator, assure the efficient wartime operation of the petroleum industry and the maintenance of adequate supplies of petroleum for war, and essential industrial and civilian uses. In order to enable the Petroleum Administrator to make appropriate recommendations, the Price Administrator shall advise with the Petroleum Administrator prior to the establishment or alteration by the Price Administrator of any schedule of prices to be charged for petroleum.

f. Be advised of all plans or proposals which deal with the civilian rationing of petroleum and consult with rationing authorities in the development of such plans or proposals; and, in those instances where rationing is for the purpose of maintaining adequate supplies of petroleum for war and essential industrial and civilian requirements, determine, after advising with the War Production Board, the areas and the times within which such rationing should be effective and the amount of petroleum available for such purpose.

g. Consult with the War Shipping Administration with respect to the assignment of tankers and the movement of petroleum, and, subject to the requirements of the Departments of War and the Navy, recommend allocations as between units of the petroleum industry of

available tankers under the control of the War Shipping Administration.

h. Designate the quantity and kind of petroleum to be shipped and received by those engaged in the petroleum industry, and certify such designations to the Office of Defense Transportation for appropriate action in providing the necessary transportation.

i. Review all plans or proposals for the construction, extension, enlargement or interconnection of petroleum pipe lines; subject to the over-all responsibilities of the Office of Defense Transportation, approve such plans or proposals as are, in his judgment, necessary to provide adequate supplies of petroleum for war and other essential uses and recommend to the War Production Board programs covering the amounts and kinds of materials needed for such pipe lines. The Administrator shall direct the physical operation of petroleum pipe lines to the extent of prescribing the quantity and kind of petroleum to be transported by and the direction of flow through such pipe lines: *Provided*, that nothing herein shall be deemed to limit the functions and authority of the Office of Defense Transportation under Executive Order No. 8989 of December 18, 1941, with respect to the provision of necessary additional transportation facilities and equipment, or to coordinate and direct domestic traffic movements.

j. Advise the several Federal departments and agencies concerned with the construction, enlargement, or additional interconnection of any natural gas transmission line as to the supply and availability of natural gas at the proposed sources of production whenever such construction, enlargement, or interconnection will result in substantially altering the rate of production at such sources.

k. Perform the duties and responsibilities with relation to petroleum and the facilities used in the petroleum industry imposed by Executive Order No. 9165 of May 19, 1942, upon the Department of the Interior.

l. Certify to the various State regulatory bodies having jurisdiction with respect to the production of petroleum, the amounts and kinds of petroleum which should be produced in their respective States, and collaborate with such State regulatory bodies in the coordination of their activities with the

programs and policies of the Administrator.

m. Keep the President informed with respect to the progress made in carrying out this order and perform such related duties as the President may from time to time assign or delegate to him.

4. The Administrator shall collaborate with the appropriate Federal departments and agencies authorized to determine plans and policies with respect to foreign petroleum activities. The Administrator shall, in conformity with such plans and policies, issue directives concerning the physical operations of their foreign petroleum facilities to units of the American petroleum industry which directly or indirectly engage in such operations in foreign countries. The Administrator shall be the channel of communication on foreign petroleum matters between the Federal departments and agencies and such units of the American petroleum industry.

5. The Administrator shall perform the functions with respect to rubber conferred upon the Office of Petroleum Coordinator for War by Executive Order No. 9246 of September 17, 1942, subject to such directives as the Rubber Director may issue pursuant to such order. Nothing in this order shall apply to or in any way limit the functions and authority, or the manner of executing the same, of the Chairman of the War Production Board or the Rubber Director in the exercise of control over and administration of the Nation's rubber program pursuant to said Executive Order No. 9246, or the functions and authority of any department, establishment or agency in the execution of such aspects of the rubber program in such manner and for such period of time as the Rubber Director may direct pursuant to said Executive Order.

6. Subject to such restrictions as may be imposed by the Departments of War and the Navy with respect to their own requirements, the several Federal departments and agencies shall supply such information and data as the Administrator may require in performing his functions and shall advise with the Administrator before undertaking any action which might affect the continuous, ready availability of petroleum for military and essential industrial and civilian needs. In order to assist him in carrying out the purposes of this order, the Administrator may establish or designate com-

mittees or groups of advisors, representing two or more departments or agencies of the Federal Government, or States. The Administrator shall meet at regular and special intervals with representatives of the various Federal departments and agencies having continuing functions directly related to petroleum or the petroleum industry.

7. The Administrator may appoint, with the approval of the President, a Deputy Administrator, who shall report directly to the Administrator, and to whom he may delegate any and all power, authority, and discretion conferred upon him by this order. The Deputy Administrator shall serve as Acting Administrator in the absence of the Administrator. The Administrator, within the limits of such funds as may be allocated or appropriated for the purpose, may employ necessary personnel and make provision for necessary supplies, facilities, travel, and services.

8. The Office of the Petroleum Coordinator for National Defense, later changed to the Office of Petroleum Coordinator for War, established by the letter of the President dated May 28, 1941, is abolished, and its personnel, records, property, and funds are transferred to the Petroleum Administration for War, effective fifteen days from the date of this order. All orders, directives, agreements, recommendations, and other documents issued or entered into under the functions, duties, and authorities of the Petroleum Coordinator for War shall remain in force as the responsibility of the Administrator until such time as he may revoke, alter, or otherwise change such documents under provisions of this Executive Order.

9. Nothing in this order shall be deemed to limit in any way the authority of the Departments of War and Navy to initiate or carry out directly, without review or approval by the Administrator, any action relating to petroleum or the petroleum industry which either Department deems to be a matter of military necessity or expediency and which arises in such areas and is of such military urgency as to require special or secret disposition; or to limit in any way the functions and authority of the Secretary of State, under the direction of the President, in the formation of the foreign policy and the conduct of the foreign relations of this Government; or to limit in any way the statutory powers of the In-

terstate Commerce Commission with respect to rates, charges, statistics, accounts, car service (including emergency service powers) or operating authority; or to limit in any way the exercise of the authority of the Federal Power Commission or the performance of its functions and authority under the Natural Gas Act (52 Stat. 821) as amended; or to limit the functions and authority of the Board of Economic Warfare under the Act of June 30, 1942 (56 Stat. 463); or to limit in any way the powers of the Price Administrator under the Emergency Price Control Act (56 Stat. 23) and as amended by Public Law 729—77th Congress, Second Session.

10. Any provisions of pertinent Executive Orders in conflict with the provisions of this order are hereby superseded: *Provided*, that nothing herein shall be deemed in any way to limit the functions and authority of the Chairman of the War Production Board under Executive Orders No. 9024 of January 16, 1942, No. 9040 of January 24, 1942, No. 9125 of April 7, 1942, and No. 9246 of September 17, 1942; or to limit in any way the functions and authority of the Federal Power Commission under Executive Order No. 8202 of July 13, 1939; or to limit in any way the functions, duties, or authority of the War Shipping Administration with respect to the operation, control, purchase, requisition, charter, repair, use, or insurance of any vessel or cargo; or to limit the functions and authority of the Board of Economic Warfare under Executive Orders No. 8839 of July 30, 1941, as amended, No. 8900 of September 15, 1941, No. 8926 of October 28, 1941, No. 8942 of November 19, 1941, and No. 9128 of April 13, 1942; or to limit the functions and authority of the Office of Lend-Lease Administration under Executive Order No. 8926 of October 28, 1941.

PROVIDING FOR THE MOST EFFECTIVE MOBILIZATION AND UTILIZATION OF THE NATIONAL MANPOWER AND TRANSFERRING THE SELECTIVE SERVICE SYSTEM TO THE WAR MANPOWER COMMISSION

In order to promote the most effective mobilization and utilization of the na-

1. The War Manpower Commission (established by Section 1 of Executive Order No. 9139, dated April 18, 1942) shall consist of a Chairman appointed by the President and one representative, designated subject to the approval of the Chairman, of each of the following departments and agencies: The Department of War, the Department of the Navy, the Department of Agriculture, the Department of Labor, the Federal Security Agency, the War Production Board, the United States Civil Service Commission, the National Housing Agency, and such other executive departments and agencies as the President shall determine; and a joint representative of the War Shipping Administration and the Office of Defense Transportation, designated by the Chairman of the War Manpower Commission (hereinafter referred to as the Chairman).

2. (a) The Selective Service System created and established for the purpose of carrying out the provisions of the Selective Training and Service Act of 1940, as amended, and all of its functions, powers, duties, personnel (including the Director of Selective Service), records, property, and funds (including all unexpended balances of appropriations, allocations, or other funds available for the administration of said Act, as amended) are transferred to the War Manpower Commission in the Office for Emergency Management of the Executive Office of the President, and shall be administered under the supervision and direction of the Chairman. The local boards and appeal boards of the Selective Service System shall, subject to the supervision and direction of the Chairman, continue to exercise the functions, powers, and duties vested in them by the Selective Training and Service Act of 1940, as amended.

(b) The functions, powers, and duties of the Director of Selective Service, including authority delegated to him by the

President under the provisions of the Selective Training and Service Act of 1940, as amended, are transferred to the Chairman and may be exercised through the Director of Selective Service and such other officers, agents, and persons and in such manner as the Chairman may determine.

(c) The Chief of Finance, United States Army, shall act as the fiscal, disbursing, and accounting agent of the Chairman in carrying out the provisions of the Selective Training and Service Act of 1940, as amended.

3. 4. After the effective date of this Order no male person who has attained the eighteenth anniversary and has not attained the thirty-eighth anniversary of the day of his birth shall be inducted into the enlisted personnel of the armed forces (including reserve components), except, under provisions of the Selective Training and Service Act of 1940, as amended; but any such person who has, on or before the effective date of this Order, submitted a bona fide application for voluntary enlistment may be enlisted within ten days after said date.

5. Insofar as the effective prosecution of the war requires it, the Chairman shall take all lawful and appropriate steps to assure that (a) all hiring, rehiring, solicitation, and recruitment of workers in or for work in any establishment, plant, facility, occupation, or area designated by the Chairman as subject to the provisions of this section shall be conducted solely through the United States Employment Service or in accordance with such arrangements as the Chairman may approve; and (b) no employer shall retain in his employ any worker whose services are more urgently needed in any establishment, plant, facility, occupation, or area designated as more essential by the Chairman pursuant to this section.

6. The Secretary of War and the Secretary of the Navy shall take such steps as may be necessary to assure that all training programs for the armed forces

(including their reserve components) and the Women's Army Auxiliary Corps, which are carried on in non-Federal educational institutions, conform with such policies or regulations as the Chairman, after consultation with the Secretary of War and the Secretary of the Navy, prescribes as necessary to insure the efficient utilization of the Nation's educational facilities and personnel for the effective prosecution of the war.

7. The Chairman shall (a) issue such policies, rules, regulations, and general or special orders as he deems necessary to carry out the provisions of this Order, (b) take steps to prevent and relieve gross inequities or undue hardships arising from the exercise of the provisions of Section 5 of this Order insofar as he finds so doing will not interfere with the effective prosecution of the war, and (c) establish such procedures (including appeals) as are necessary to assure a hearing to any person claiming that any action, taken by any local or regional agent or agency of the War Manpower Commission pursuant to Section 5 of this Order and said Executive Order No. 9139, is unfair or unreasonable as applied to him.

8. (a) The Chairman may perform the functions and duties and exercise the powers, authority, and discretion conferred upon him by this Order or any other Order of the President through such officers, agents, and persons and in such manner as he shall determine.

9. Subject to appeal to the President or to such agent or agency as the President may designate, each Executive department and agency shall so utilize its facilities, services, and personnel and take such action, under authority vested in it by law, as the Chairman, after consultation with such department or agency, determines necessary to promote compliance with the provisions of this Order or of policies, directives, or regulations prescribed under said Executive Order No. 9139.

10. The Chairman shall appoint a Management-Labor Policy Committee to be selected from the fields of labor, agriculture, and industrial management, and

12. All prior Executive Orders, insofar as they are in conflict herewith, are amended accordingly. All prior regulations, rulings, and other directives relating to the Selective Service System shall remain in effect, except insofar as they are in conflict with this Order or are hereafter amended by regulations, rulings, or other directives issued by or under the direction of the Chairman.

13. This Order shall take effect immediately and shall continue in force and effect until the termination of Title I of the First War Powers Act, 1941.

EXECUTIVE ORDER 9280

DELEGATING AUTHORITY WITH RESPECT TO THE NATION'S FOOD PROGRAM

By virtue of the authority vested in me by the Constitution and the statutes of the United States, as President of the United States and Commander in Chief of the Army and Navy, and in order to assure an adequate supply and efficient distribution of food to meet war and essential civilian needs, it is hereby ordered as follows:

1. The Secretary of Agriculture (hereinafter referred to as the "Secretary") is authorized and directed to assume full responsibility for and control over the Nation's food program. In exercising such authority, he shall:

a. Ascertain and determine the direct and indirect military, other governmental, civilian, and foreign requirements for food, both for human and animal consumption and for industrial uses.

b. Formulate and carry out a program designed to furnish a supply of food adequate to meet such requirements, including the allocation of the agricultural productive resources of the Nation for this purpose.

c. Assign food priorities and make allocations of food for human and animal consumption to governmental agencies and for private account, for direct and indirect military, other governmental, civilian, and foreign needs.

d. Take all appropriate steps to insure the efficient and proper distribution of the available supply of food.

e. Purchase and procure food for such Federal agencies, and to such extent, as he shall determine necessary or desirable, and promulgate policies to govern the purchase and procurement of food by all other Federal agencies: *Provided*, That nothing in this subsection shall limit the authority of the armed forces to purchase or procure food outside the United States or in any theater of war as such purchase and procurement shall be required by military or naval operations, or the authority of any other authorized agency to purchase or procure food outside the United States for rehabilitation or relief purposes abroad. Existing methods for the purchase and procurement of food by other Federal agencies shall continue until otherwise determined by the Secretary pursuant to this Executive Order.

2. The Secretary shall recommend to the Chairman of the War Production Board the amounts and types of non-food materials, supplies, and equipment necessary for carrying out the food program. Following consideration of these recommendations, the Chairman of the War Production Board shall allocate stated amounts of non-food materials, supplies, and equipment to the Secretary for carrying out the food program; and the War Production Board, through its priorities and allocation powers, shall direct the use of such materials, supplies, and equipment for such specific purposes as the Secretary may determine.

3. Whenever the available supply of any food is insufficient to meet both food and industrial needs, the Chairman of the War Production Board and the Secretary shall jointly determine the division to be made of the available supply of such food. In the event of any difference of view between the Chairman of the War Production Board and the Secretary, such difference shall be submitted for final determination to the President or to such agent or agency as the President may designate.

4. The Secretary, after determining the need and the amount of food available for civilian rationing, shall, through the Office of Price Administration, exercise the priorities and allocation powers conferred upon him by this Executive Order for civilian rationing, with respect to (a) the sale, transfer, or other disposition of food by any person who sells at retail to any person, and (b) the sale, transfer, or other disposition of food by any person to an ultimate consumer, as is currently provided for in War Production Board Directive No. 1, dated January 24, 1942,¹ and existing supplements thereto; and with respect to (c) the sale, transfer, or other disposition of food by any person at such other levels of distribution as he may determine; and in the administration or enforcement of any such priorities or allocation authority for civilian rationing, the Office of Price Administration, subject to the provisions of this Executive Order, is hereby authorized to exercise all the functions, duties, powers, authority, or discretion conferred upon the Price Administrator by Section 3 of Executive Order 9125 of April 7, 1942. The Secretary, before determining the time, extent, and other conditions of civilian rationing, shall consult with the Price Administrator.

5. In discharging his responsibility under this Executive Order with respect to the exportation of food, the Secretary shall collaborate with the other agencies concerned with the foreign aspects of the food program in the determination of plans, policies and procedures for the feeding of the peoples in foreign countries and the production and stockpiling of food for use abroad. With respect to the issuance of the directives for the importation of food heretofore issued to the Board of Economic Warfare by the Chairman of the War Production Board under Executive Order No. 9128 of April 13, 1942, the Secretary shall issue those directives which relate to the importation of food for human and animal consumption, and the Chairman of the War Production Board and the Secretary shall jointly issue those directives which relate to the importation of food for industrial uses. The Chairman of the War Production Board shall continue to issue all other directives which relate to the importation of materials, supplies,

and equipment required for the war production program and the civilian economy. Schedules of priorities heretofore prepared and issued by the Chairman of the War Production Board under Executive Order 9054 of February 7, 1942 for the importation by overseas transportation of food for human or animal consumption and for industrial uses shall be similarly issued, and transmitted to the Administrator of War Shipping Administration for his guidance.

6. In discharging his responsibility under this Executive Order, the Secretary shall, in the event of a shortage of domestic transportation service, and after consultation with the War Production Board for the purpose of adjusting the relative demands for the movement of food for human or animal consumption and the movement of commodities for other purposes, prepare schedules of priorities for the domestic movement of food, which the Office of Defense Transportation shall take into consideration in determining traffic movements.

7. (a) To advise and consult with him in carrying out the provisions of this Executive Order, the Secretary shall appoint a committee composed of representatives of the State, War, and Navy Departments, the Office of Lend-Lease Administration, the Board of Economic Warfare, the War Production Board, and such other agencies as the Secretary may determine to be concerned with the food program. The Food Requirements Committee of the War Production Board established by the Chairman of the War Production Board by memorandum dated June 4, 1942 is abolished effective as of the date of appointment of said advisory committee. The Secretary shall receive from the members of such advisory committee estimates of food requirements, and consult with such committee prior to the making of food allocations under Section 1 (c) of this Executive Order. Such committee shall perform such other functions in connection with the food program as the Secretary may determine. The Secretary may, in his discretion, appoint such other advisory committees composed of representatives of governmental or private groups interested in the food program as he deems appropriate.

b. Section 1 of Executive Order No. 9024, dated January 16, 1942, is amended to provide that the Secretary shall be a member of the War Production Board.

¹ 7 F.R. 562.

8. The Secretary, in carrying out the responsibilities imposed on him by this Executive Order, may, subject to the provisions of this Executive Order, exercise the following powers in addition to the powers heretofore vested in him.

a. The power conferred upon the Department of Agriculture with respect to contracts by Executive Order No. 9023 of January 14, 1942.

b. The power conferred upon the President by Title III of the Second War Powers Act, 1942, insofar as it relates to priorities and allocations of (1) all food for human or animal consumption or for other use in connection with the food program, but excluding that food which has been determined to be available to the War Production Board for industrial purposes pursuant to Section 3 of this Executive Order; (2) those portions of non-food materials, supplies, and equipment which have been allocated by the War Production Board under Section 2 of this Order for carrying out the food program; (3) any other material or facility, when the Secretary determines that it is necessary, in order to carry out the provisions of this Executive Order, to exercise the priorities or allocation power with respect thereto: *Provided*, That in order to avoid overlapping and conflicting action, prior to taking action pursuant to item (3) hereof, the Secretary shall inform the Chairman of the War Production Board of the action proposed to be taken, and in the event that the Chairman of the War Production Board shall object, the issue shall be determined by the President or such agent or agency as he may designate. Contracts or orders, relating to the materials and facilities specified in this sub-section, made by the Secretary, or by any other officer or agency of the Government at the Secretary's direction, and subcontracts and suborders which the Secretary shall deem necessary or appropriate to the fulfillment of any such contract or order, are hereby declared to be necessary and appropriate to promote the defense of the United States. The Secretary may assign priorities with respect to deliveries under any such contract, order, subcontract or suborder, and he may require acceptance of and performance of any such contract, order, subcontract or suborder, in preference to other contracts or orders for the purpose of assuring such priority. Allocations of materials and facilities under this sub-section may be made by the Secretary in such manner,

upon such conditions, and to such extent as he shall deem necessary or appropriate in the public interest, to promote the national defense, and to carry out the provisions of this Executive Order.

c. The Secretary may, except as otherwise provided herein, delegate to any appropriate Federal, state, or local governmental agency, officer, or employee, in such manner and for such periods of time as he shall deem advisable, the execution of any of the provisions of this Executive Order together with any powers of the Secretary under this Executive Order. To the fullest extent compatible with efficiency the Secretary shall utilize existing facilities and services of other governmental departments and agencies and may accept the services and facilities of

any state or local governmental agency in carrying out his responsibilities defined hereunder.

10. As used herein, the term "food" shall mean all commodities and products, simple, mixed, or compound, or complements to such commodities or products that are or may be eaten or drunk by either humans or animals, irrespective of other uses to which such commodities or products may be put, and at all stages of processing from the raw commodity to the product thereof in a vendible form for immediate human or animal consumption, but exclusive of such commodities and products as the Secretary shall determine. For the purposes of this Executive Order, the term "food" shall also include all starches, sugars, vegetable and animal fats and oils, cotton, tobacco, wool, hemp, flax fiber, and such other agricultural commodities and products as the President may designate.

In determining the amounts transferred hereunder, allowance shall be made for the liquidation of obligations previously incurred against such balances of appropriations, allocations, or other funds transferred.

13. To facilitate the effective discharge of the Secretary's responsibility under this Executive Order, the following changes are made within the Department of Agriculture:

EXECUTIVE ORDER 9289

REGULATIONS GOVERNING THE PAYMENT OF OVERTIME COMPENSATION TO EMPLOYEES OF THE EXECUTIVE DEPARTMENTS AND AGENCIES

By virtue of the authority vested in me as President of the United States, I hereby prescribe the following regulations governing the payment of compensation for employment in excess of 40 hours in any administrative workweek to civilian employees of the Government to whom the provisions of Senate Joint Resolution 170, 77th Congress, are applicable:

Section 1. Heads of Executive departments and agencies, or such officers or employees as they may designate, shall establish official hours of duty and a regular workweek for each employee or group of employees. No employee shall be required to work in excess of the officially established hours of duty except upon the order of the head of the department or agency or of such officer or employee as has been delegated specific authority to require such additional work.

Section 2. Overtime compensation for employment in excess of 40 hours during an officially established regular workweek, and for work ordered or approved in addition to the regular workweek so established shall be paid at the rate of one and one-half times the employee's regular rate of compensation, subject to the following limitations:

(a) No overtime compensation shall be paid on any part of an employee's

basic rate of compensation in excess of \$2,900 per annum;

(b) Each employee shall be paid only such overtime compensation or portion thereof as will not cause his aggregate compensation, composed of his basic rate of compensation and his overtime compensation, to exceed a rate of \$5,000 per annum.

For the purpose of computing overtime compensation the pay for one hour shall be considered to be $\frac{1}{8}$ of the employee's pay for one day and the pay for one day shall be considered to be $\frac{1}{360}$ of the employee's per-annum salary.

Section 3. Overtime compensation of per-annum employees for employment during an officially established regular workweek in excess of 40 hours may be calculated on an annual basis and paid in equal amounts on the regular monthly or semi-monthly pay days.

Section 4. In the case of an employee to whom the annual- and sick-leave laws approved March 14, 1936, 49 Stat. 1161, 1162, as amended, are applicable, approved absence, except on leave without pay, during any part of the officially established regular workweek shall be charged as annual or sick leave as the case may be, and any absence on approved annual or sick leave shall not be construed to reduce the amount of overtime compensation to which the employee is entitled for employment during the officially established regular workweek.

Section 5. Overtime compensation for employment in excess of 40 hours per week during the period between December 1, 1942, and the date of issuance of these regulations shall be paid on the basis of the official hours of duty which employees were required to work during such period and on the basis of any additional overtime officially ordered or approved and currently recorded.

Section 6. Notwithstanding the provisions of this order, Federal civilian employees on vessels operated by the United States whose wages and allowances are computed on the basis of the special hours and conditions of their work may be compensated in accordance with the wage practices of the maritime industry.

Section 7. Employees such as certain forest-fire lookouts, forest guards, and lighthouse keepers the nature of whose work (as determined by the head of the department or agency concerned) requires them to remain at or within the

confines of their posts of duty for more than 40 hours per week but does not require that all of their time be devoted to actual work shall be considered to have intermittent or irregular hours of duty within the meaning of the last proviso of section 1 of the said Senate Joint Resolution 170, 77th Congress.

Section 8. This order shall take effect as of December 1, 1942, and shall be published in the **FEDERAL REGISTER**.

Section 9. Executive Orders Nos. 8837 of July 30, 1941, and 9117 of March 31, 1942, are hereby revoked as of the effective date of this order.

2. No carrier shall make any change in wage rates, except such changes as by general order of the National War Labor Board, or by regulations of the Commissioner of Internal Revenue, are permitted to be made without the specific approval of the Board or the Commissioner, as the case may be, unless notice of such proposed change shall have been filed with the Chairman of the National Railway Labor Panel, created by Executive Order No. 9172, and shall have been permitted to become effective as hereinafter provided.

Notwithstanding § 4001.2 of the Regulations of the Economic Stabilization Director,¹ for the purpose of determining what wage and salary adjustments may be made without any specific approval, the general orders of the National War Labor Board shall be applicable to all employees subject to the Railway Labor Act, except those receiving salaries at the rate of \$5,000 or more per annum in regard to whom the regulations of the Commissioner of Internal Revenue shall apply. But any adjustment of salary under \$5,000 heretofore approved by the Commissioner shall not be affected by this order.

3. If the Chairman of the National Railway Labor Panel has reason to believe that the proposed change, in wage rates or salary, may not conform to the standards prescribed in Executive Order No. 9250, or to the general stabilization program made effective thereunder, or to

the directives on policy issued by the Economic Stabilization Director thereunder and the proposed change is not modified to conform to such standards, program, and directives, he shall designate three members of the Panel as an Emergency Board to investigate the proposed change and to report to the President. Otherwise, the Chairman of the Panel may permit the proposed change to become effective.

4. Emergency Boards, whether designated pursuant to the Railway Labor Act, Executive Order No. 9172, or section 3 of this order, in reporting to the President shall certify that their recommendations in regard to any proposed change affecting wage and salary payments conform with the standards prescribed in Executive Order No. 9250, the general stabilization program made effective thereunder, and with the directives on policy issued by the Economic Stabilization Director thereunder.

5. Copies of the report with recommendations made to the President by any Emergency Board under section 4 of this order shall be filed by the Board forthwith with the Economic Stabilization Director, the National War Labor Board and the Commissioner of Internal Revenue. The Economic Stabilization Director may on behalf of himself or other departments and agencies concerned, report to the President the effect of the recommendations on the general stabilization program. Unless and except to the extent that the Economic Stabilization Director shall otherwise direct, the recommendations of the Emergency Board in regard to proposed changes affecting wages and salary payments shall, upon the expiration of thirty days after the report is filed with the President, become effective.

6. The National War Labor Board and the Commissioner of Internal Revenue shall either rule on any application for approval of wage and salary adjustments now before the Board and the Commissioner or transfer it to the Chairman of the National Railway Labor Panel. The Board and the Commissioner shall not rule on any application hereafter made.

EXECUTIVE ORDER 9300

ESTABLISHING THE INTERDEPARTMENTAL
COMMITTEE TO CONSIDER CASES OF SUB-
VERSIVE ACTIVITY ON THE PART OF
FEDERAL EMPLOYEES

By virtue of the authority vested in me by section 1753 of the Revised Statutes of the United States, Title I of the First War Powers Act, 1941 (Public Law 354—77th Congress), and as President of the United States, it is hereby ordered as follows:

1. There is hereby established, within the Department of Justice, an Interdepartmental Committee whose composition, powers, functions, and responsibilities are defined herein.

2. The Committee shall consist of five members appointed by the President from among the officers or employees of the departments, independent establishments and agencies of the Federal Government. The Committee shall choose its own officers.

3. The Committee shall serve as an advisory and coordinating agency in all matters pertaining to the investigation and disposition of complaints of subversive activity on the part of employees of the executive branch of the Federal Government excepting those who are on conditional appointment subject to the results of an investigation which is still pending, and shall initiate such measures as are best suited in its judgment to assure fair and prompt disposition of complaints and to protect the interests of the Government of the United States: *Provided, however,* that the Committee shall take no action concerning employees of the Department of the Navy or the Department of War except upon request from the Secretary of the Navy or the Secretary of War, respectively.

4. The departments, independent establishments and agencies of the Federal Government shall refer all complaints within the purview of paragraph 3 of this order, hereinafter referred to as complaints, together with all available information pertaining thereto, to the Federal Bureau of Investigation in the Department of Justice, for information or investigation.

5. The Committee shall consider general classes of complaints, or particular complaints, upon request of the Department of Justice, and shall recommend

to the Department appropriate policies to govern the investigation of such complaints.

6. The Committee shall receive all completed investigative reports made by the Federal Bureau of Investigation, Department of Justice, on complaints and shall advise the departments, independent establishments and agencies concerning the procedures for determining action thereon.

7. The departments, independent establishments and agencies of the executive branch of the Government are directed to report to the Committee, within a reasonable period of time, the procedures followed and action taken on all cases referred by the Committee. The Committee in turn shall report forthwith to the Federal Bureau of Investigation the action taken by the employing department, independent establishment, or agency.

8. Upon request from an employing department independent establishment, or agency, the Committee may review the record in any case within the purview of paragraph 3 of this order and return an advisory opinion concerning the disposition of the case.

9. Whenever the requirements of internal security appear to the Committee to have been insufficiently considered in connection with the disposition of an investigative report, the Committee may review the case upon its own motion and transmit its recommendation to the employing department, independent establishment, or agency.

10. In time of war or other national emergency, upon a finding that internal security will be endangered by recourse to the procedures authorized elsewhere in this order, the Committee may recommend to the President such special action in exceptional cases as internal security may require.

11. Nothing contained in this order shall be construed to limit the authority of any department, independent establishment, or agency to suspend any employee as provided by law, to bar an immediate arrest and the transfer to court jurisdiction of any case in which the Department of Justice finds that such action is warranted, or to restrict the powers and responsibilities of the Civil Service Commission in connection with its review of disciplinary or administrative action against an employee.

12. The Department of Justice is hereby directed to furnish such clerical, stenographic, and other assistance and supplies as may be necessary to the operation of the Committee. Members of the Committee shall serve without compensation in such capacity.

EXECUTIVE ORDER 9301

ESTABLISHING A MINIMUM WARTIME WORKWEEK OF FORTY-EIGHT HOURS

By virtue of the authority vested in me by the Constitution and statutes, as President of the United States, and in order to meet the manpower requirements of our armed forces and our expanding war production program by a fuller utilization of our available manpower, it is hereby ordered:

1. For the duration of the war, no plant, factory or other place of employment shall be deemed to be making the most effective utilization of its manpower if the minimum workweek therein is less than 48 hours per week.

The Chairman of the War Manpower Commission shall determine all questions of interpretation and application arising under this order and shall formulate and issue such policies, directives, and regulations as he determines to be necessary to carry out this order and to effectuate its purposes. The Chairman of the War Manpower Commission is authorized to establish a minimum workweek greater or less than that established in section 1 of this order or take other action with respect to any case or type of case in which he determines that such different minimum workweek or other action would more effectively contribute to the war effort and promote the purposes of this order.

4. All departments and agencies of the Federal Government shall comply with such policies, directives, and regulations as the Chairman of the War Manpower

Commission shall prescribe pursuant to this order, and shall so utilize their facilities, services, and personnel, and take such action under authority vested in them by law, as the Chairman determines to be necessary to effectuate the purposes of this order and promote compliance with its provisions.

5. Nothing in this order shall be construed as superseding or in conflict with any Federal, State or local law limiting hours of work or with the provisions of any individual or collective bargaining agreement with respect to rates of pay for hours worked in excess of the agreed or customary workweek, nor shall this order be construed as suspending or modifying any provision of the Fair Labor Standards Act (Act of June 25, 1938; 52 Stat. 1060; 29 U.S.C. 201 et seq.) or any other Federal, State or local law relating to the payment of wages or overtime.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,

March 3, 1943.

EXECUTIVE ORDER 9309

CONTROLLING GOVERNMENT REQUESTS FOR THE SELECTIVE SERVICE DEFERMENT OF FEDERAL EMPLOYEES

By virtue of the authority vested in me by the Constitution and statutes (including the Selective Training and Service Act of 1940, as amended) as President of the United States, and in order to further the prosecution of the war by conserving and most effectively utilizing manpower and by systematizing the handling of necessary selective service occupational deferment of employees in the Executive branch of the Federal Government, it is ordered as follows:

I. LIMITATIONS ON RIGHT TO REQUEST OCCUPATIONAL DEFERMENT

1. No agency shall request the selective service deferment of any employee on occupational grounds except in accordance with the provisions of this Order. No employee shall initiate a request for his own deferment on occupational grounds or advocate the making of such a request on his own behalf.

2. No such request shall be made unless it is determined, in the manner herein provided, that the employee's civilian services are essential in that the loss thereof would substantially impair activities essential to the war effort (including necessary supporting activities and the maintenance of the national health, safety, and interest). In determining whether such an employee's services are thus essential, consideration shall be given to all relevant factors, including the actual effectiveness of the employee, the difficulty of replacing him, his age, his qualifications, his assignment to duties outside the continental United States and the length of his service in the position he occupies or in positions with comparable duties.

3. No such request shall be made for a period longer than is deemed to be absolutely necessary nor for a period of more than six months.

II. ESTABLISHMENT OF COMMITTEES

1. The Chairman of the War Manpower Commission (hereinafter referred to as the Chairman) shall designate with the approval of the President a chairman and two members of a War Manpower Commission committee to be known as the Review Committee on Deferment of Government Employees (hereinafter referred to as the Review Committee). Such Committee shall be subject to the supervision and direction of the Chairman.

2. The head of each agency shall designate a Committee on Deferment of Government Employees (hereinafter referred to as an Agency Committee), of three to five members possessing a comprehensive view of the needs of the agency. For the purposes of this Order the Government of the District of Columbia shall be deemed to be an agency. Each Agency Committee shall be subject to the supervision and direction of the head of the agency.

3. When authorized by the Review Committee, the head of any agency may also designate regional committees whenever the number and geographical distribution of the personnel of the agency make such action desirable. Within their respective areas such regional committees shall have the authority and responsibility of an Agency Committee; and as used in this Order the term "Agency Committee" shall include a regional committee established under this section.

III. DESIGNATION OF KEY POSITIONS

1. Each Agency Committee, with the approval of the head of the agency, shall submit to the Review Committee for its approval a list of those positions in the agency deemed necessary to carry out activities essential to the war effort or to necessary supporting activities. All such positions approved by the Review Committee shall be known as "key positions." The Review Committee, either on its own motion or upon recommendation made by the Agency Committee and approved by the head of the agency, may revise the list of key positions of that agency as conditions warrant.

2. Key positions shall be limited to positions involving serious difficulty of replacement because a scarcity of available qualified personnel exists and because any incumbent of the position must have had, in order to perform the duties ef-

fectively, an extended period of training or specialized experience. The designation of key positions shall be further governed by the following criteria:

a. The work is of a responsible administrative, executive, or supervisory character in activities directly related to the war effort, or to the essential maintenance of orderly government (including the maintenance of the health, morale, and security of the nation); or

b. The work is a part of the actual production, transportation, or handling of war materials, equipment, or commodities, or of the maintenance or operation of war equipment, or of the transportation of war personnel; or

c. The work is of a professional, semi-professional, or highly specialized character, requiring extended training, in an occupation where a known scarcity of manpower exists; or

d. The work usually requires male employees because of peculiar circumstances or requisite physical abilities, including the occupations of seamen, investigatory agents, forest rangers, border patrolmen, prison guards, and other comparable occupations wherein replacement within necessary age limits is difficult.

IV. REQUESTS FOR DEFERMENT

1. In accordance with the provisions of this Order, and subject to the limitations set forth in Part I hereof, an Agency Committee may, in cases not covered by the Replacement Schedule procedure set forth in paragraph 5 of this Part, prepare and submit to the appropriate local selective service board a request for the occupational deferment of—

a. Any employee of the agency who occupies a key position and whose civilian services are essential within the meaning of paragraph 2 of Part I hereof.

b. Any employee of the agency not occupying a key position whose civilian services are essential within the meaning of paragraph 2 of Part I hereof, if unusual and special circumstances, such as the employee's unique fitness for the work or unique familiarity with a specific project in the course of completion make such deferment request necessary. No request for deferment shall be made under this subparagraph except with the prior specific approval of the Review Committee.

2. Subject to the conditions set forth in this Order, the Agency Committees shall make all requests for selective service occupational deferment of employees of their respective agencies, and shall prepare and submit such requests to local selective service boards in accordance with selective service regulations.

3. In preparing the prescribed selective service form for submitting a request for occupational deferment to the local selective service board, the Agency Committee shall enter on such form the words "Government Request," and shall also indicate thereon the name of the agency and the subordinate part thereof in which the registrant is employed.

4. In any case in which a Government request for deferment is denied by a local selective service board, the Agency Committee concerned shall at once file an appeal from such action. The appeal shall stay the induction of the employee affected until final decision in the case.

5. The Chairman, upon his own motion or upon recommendation made by an Agency Committee and approved by the head of the agency, shall determine, after consultation with the Review Committee, those manufacturing, servicing, operating, and transporting activities of an agency or part thereof with respect to which deferment problems can be best met through use of manning tables and replacement schedules. He shall thereupon direct the head of the agency concerned to prepare and use, with respect to those activities or organizations, manning tables and replacement schedules, in accordance with the regulations prescribed by the Chairman. Such agency or part thereof shall thereafter be exempt from the provisions of Part III of this Order (providing for the designation of key positions) and the provisions of this Order governing the making of requests for deferment of employees to the extent and in the respects provided in the regulations of the Chairman.

V. VOLUNTARY ENTRANCE INTO ARMED FORCES

1. Unless an Agency Committee has requested or would request deferment of an employee under this Order, the agency, upon his request, shall grant him a release to enter the armed forces voluntarily in a commissioned or enlisted status.

2. If an Agency Committee has requested or would request deferment of an employee under this Order, the agency shall deny him such a release unless it is determined that:

a. The employee is likely to be assigned to active combat service; or

b. The employee's skills and ability probably will be utilized equally or more effectively in the armed forces.

3. In the case of an employee who is in a deferred classification, or who is not subject to induction, for reasons unrelated to his occupation, such a release shall be granted or denied without regard to such reasons, in accordance with the provisions of paragraphs 1 and 2 of this Part.

4. When an Agency Committee denies release of an employee, such action shall upon his request be reviewed by the Review Committee. The Agency Committee shall be notified of the final decision, and if the denial is affirmed, such committee shall immediately notify the employee's local selective service board.

VI. DEPENDENCY—OCCUPATIONAL RECLASSIFICATION

Agency Committees may make requests for the selective service reclassification from Class III-A to Class III-B of employees other than those engaged in occupations designated by the Chairman as non-deferable. Such requests shall be made in accordance with standards, to be prescribed by the Chairman, for determining the relationship of employees' activities to the war effort, which standards shall conform, as nearly as may be, to the standards applicable to such reclassification in the case of persons not in the Federal service.

VII. GENERAL PROVISIONS

1. Under regulations to be prescribed by the Chairman, the Agency Committee in each agency shall supervise the preparation and maintenance, on a current basis, of adequate statistics on the selective service status of its male employees, and on related matters, which shall be summarized and reported to the Review Committee at periodic intervals.

2. Heads of agencies shall issue special instructions to insure that an employee will immediately report through proper channels any change in his selective service status or the receipt of notice to report for induction.

3. Each agency shall plan and carry out an orderly program of replacement and training occasioned by the entry or prospective entry of employees into the armed forces, on the basis of the information provided for in paragraph 1 of this Part of this Order.

4. The Chairman shall from time to time make recommendations to the Director of the Bureau of the Budget, based on information and experience acquired in the administration of this Order, for the effective utilization of the services of Government employees with respect to the conservation of manpower.

5. Under regulations to be prescribed by the Chairman, the several agencies shall submit to the Review Committee periodic reports concerning all action taken under this Order. The Review Committee shall currently review such reports and shall consult with Agency Committees with respect to any departures from this Order. The Review Committee may also designate representatives to attend meetings of Agency Committees. Such representatives shall at all times have full access to all records of such Committees.

6. The Chairman shall report to the President, at intervals of not more than three months, with respect to the administration of this Order and shall make recommendations to the President with respect to such modifications of this Order as he may deem advisable.

7. The Chairman may suspend the authority of any Agency Committee to submit requests for deferment if the Agency Committee submits requests in violation of this Order.

8. A request for deferment of an employee may be cancelled by the Review Committee if it determines that the request was made in violation of this Order.

9. The Chairman shall furnish copies of this Order to all local selective service boards.

10. The Chairman may delegate any of his duties and powers under this Order to any officer or employee of the War Manpower Commission and may utilize the services of any Federal officer, employee, or agency.

11. The Chairman shall prescribe such regulations as may be necessary to carry out the purposes of this Order, including such additional criteria for the des-

ignation of key positions as he may deem necessary.

EXECUTIVE ORDER 9327

PROVIDING FOR THE MORE EFFECTIVE HANDLING OF GOVERNMENTAL PROBLEMS IN CONGESTED PRODUCTION AREAS IN ORDER TO FURTHER THE SUCCESSFUL PROSECUTION OF THE WAR

By virtue of the authority conferred on me by the Constitution and statutes and especially by the First War Powers Act, 1941, in order to promote the successful prosecution of the war by providing for the more effective handling of governmental problems in Congested Production Areas, it is hereby ordered:

1. For the purposes of this order a Congested Production Area is an area which, by reason of a large increase in

population and activity due to the war, is lacking in adequate services or facilities.

2. There is established a Committee for Congested Production Areas herein referred to as the Committee), consisting of the Director of the Bureau of the Budget, as Chairman, and one member designated by the President from each of the following departments and agencies: Department of War, Department of the Navy, War Production Board, Federal Works Agency, National Housing Agency, and War Manpower Commission. The Chairman and each member or his designated alternate shall have one vote.

3. In order to deal effectively with problems arising out of congestion in Congested Production Areas, it shall be the duty and responsibility of the Committee

(a) To designate those areas which are to be considered Congested Production Areas for the purposes of this order and to modify or terminate such designations as it may deem advisable;

(b) To cooperate with and supplement the efforts of State and local governments with respect to such problems in such areas;

(c) To coordinate the activities of all Federal agencies insofar as they affect problems arising out of congestion in such areas;

(d) To prescribe such policies and action as may be necessary to effectuate such coordination.

4. The Committee shall employ a suitable person as Director to carry out the decisions and policies of the Committee and administer its affairs. The Director may employ such personnel as the Committee may deem necessary.

5. The Director may designate, subject to the approval of the Committee, an Area Director for each Congested Production Area. Such Area Director shall be responsible to the Director and, under the general policies of the Committee, shall be responsible for securing coordination of all Federal agencies which deal with problems arising out of congestion within his area. He shall promptly report to the Director any problems or

situations which he is unable to resolve, and the Director shall advise with the Federal agencies concerned to the end that coordination may be secured. The Area Director may recommend to the Director such policies and action as he deems advisable to further the purposes of this order and facilitate the prosecution of the war.

6. Each Area Director, after consultation with local, State, and Federal officials in the area, and with the approval of the Director, shall designate an Area Advisory Council which may include representatives of the State government, local governments, and local communities in his area, and Federal agencies having supply or operating facilities in the area which are directly related to the war program. EXECUTIVE ORDER 9328

[STABILIZATION OF WAGES, PRICES, AND SALARIES]

By virtue of the authority vested in me by the Constitution and the statutes, and particularly by the First War Powers Act, 1941, and the Act of October 2, 1942, entitled "An Act to

Amend the Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes," as President of the United States and Commander in Chief of the Army and Navy, and in order to safeguard the stabilization of prices, wages and salaries, affecting the cost of living on the basis of levels existing on September 15, 1942, as authorized and directed by said Act of Congress of October 2, 1942, and Executive Order No. 9250 of October 3, 1942, and to prevent increases in wages, salaries, prices and profits, which, however justifiable if viewed apart from their effect upon the economy, tend to undermine the basis of stabilization, and to provide such regulations with respect to the control of price, wage and salary increases as are necessary to maintain stabilization, it is hereby ordered as follows:

1. In the case of agricultural commodities the Price Administrator and the Administrator of Food Production and Distribution (hereinafter referred to as the Food Administrator) are directed, and in the case of other commodities the Price Administrator is directed to take immediate steps to place ceiling prices on all commodities affecting the cost of living. Each of them is directed to authorize no further increases in ceiling prices except to the minimum extent required by law. Each of them is further directed immediately to use all discretionary powers vested in them by law to prevent further price increases direct or indirect, to prevent profiteering and to reduce prices which are excessively high, unfair or inequitable. Nothing herein, however, shall be construed to prevent the Food Administrator and the Price Administrator, subject to the general policy directives of the Economic Stabilization Director, from making such readjustments in price relationships appropriate for various commodities, or classes, qualities or grades thereof or for seasonal variations or for various marketing areas, or from authorizing such support prices, subsidies or other inducements as may be authorized by law and deemed necessary to maintain or increase production, provided that such action does not increase the cost of living. The power, functions and duties conferred on the Secretary of Agriculture under section 3 of the Emergency Price Control Act of 1942 (Public Law 421, 77th Cong.) and under section 3 of the Act of October 2, 1942 (Public Law 729, 77th Cong.) are

hereby transferred to, and shall be exercised by the Food Administrator.

2. The National War Labor Board, the Commissioner of Internal Revenue and other agencies exercising authority conferred by Executive Order No. 9250 or Executive Order 9299 and the regulations issued pursuant thereto over wage or salary increases are directed to authorize no further increase in wages or salaries except such as are clearly necessary to correct substandards of living, provided that nothing herein shall be construed to prevent such agencies from making such wage or salary readjustments as may be deemed appropriate and may not have heretofore been made to compensate, in accordance with the Little Steel Formula as heretofore defined by the National War Labor Board, for the rise in the cost of living between January 1, 1941 and May 1, 1942. Nor shall anything herein be construed to prevent such agencies, subject to the general policies and directives of the Economic Stabilization Director, from authorizing reasonable adjustments of wages and salaries in case of promotions, reclassifications, merit increases, incentive wages or the like, provided that such adjustments do not increase the level of production costs appreciably or furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices.

3. The Chairman of the War Manpower Commission is authorized to forbid the employment by any employer of any new employee or the acceptance of employment by a new employee except as authorized in accordance with regulations which may be issued by the Chairman of the War Manpower Commission, with the approval of the Economic Stabilization Director, for the purpose of preventing such employment at a wage or salary higher than that received by such new employee in his last employment unless the change of employment would aid in the effective prosecution of the war.

4. The attention of all agencies of the Federal Government, and of all State and municipal authorities, concerned with the rates of common carriers or other public utilities, is directed to the stabilization program of which this order is a part so that rate increases will be disapproved and rate reductions effected, consistently with the Act of October 2, 1942, and other applicable federal, state or municipal law, in order to keep down

the cost of living and effectuate the purposes of the stabilization program.

5. To provide for the consistent administration of this order and Executive Order No. 9250, and other orders and regulations of similar import and for the effectuation of the purposes of the Act of October 2, 1942, the Economic Stabilization Director is authorized to exercise all powers and duties conferred upon the President by that Act, and the Economic Stabilization Director is authorized and directed to take such action and to issue such directives under the authority of that Act as he deems necessary to stabilize the national economy, to maintain and increase production and to aid in the effective prosecution of the war. Except insofar as they are inconsistent with this order or except insofar as the Director shall otherwise direct, powers and duties conferred upon the President by the said Act and heretofore devolved upon agencies or persons other than the Director shall continue to be exercised and performed by such agencies and persons.

6. Except insofar as they are inconsistent with this order, Executive Order 9250 and the regulations issued pursuant thereto shall remain in full force and effect.

EXECUTIVE ORDER 9332

ESTABLISHING THE SOLID FUELS ADMINISTRATION FOR WAR

By virtue of the authority vested in me by the Constitution and statutes of the United States, as President of the United States and Commander in Chief of the Army and Navy, it is hereby ordered as follows:

1. Whenever used in this Order:

(a) The term "solid fuels" includes all forms of anthracite, bituminous, sub-bituminous, and lignitic coals (including packaged and processed fuels, such as briquettes).

(b) The term "solid fuels industries" means the development, production, preparation, treatment, processing, storage, shipment, receipt, and distribution of solid fuels within the United States, its territories and possessions, but does not include the transportation of solid fuels.

(c) The term "transportation" means transportation as defined in the Interstate Commerce Act, as amended, and in Executive Orders Nos. 8989 and 9156.

(d) The terms "distribution" and "shipment" exclude transportation, and the terms "distribute" and "ship" exclude transport.

(e) The term "directive" includes order, regulation, and any other similar instrument.

2. There is established within the Department of the Interior a Solid Fuels Administration for War, at the head of which shall be a Solid Fuels Administrator, hereinafter referred to as the Administrator. The Secretary of the Interior shall serve ex-officio as Administrator.

3. The Administrator shall:

(a) Subject to the provisions of this Order, establish basic policies and formulate plans and programs to assure for the prosecution of the war the conservation and most effective development and utilization of solid fuels in the United States and its territories and possessions, issue necessary policy and operating directives to parties engaged in the solid fuels industries, and appoint such general, regional, local, or functional solid fuels industries committees or councils as the Administrator finds necessary, *Provided* that no directive issued hereunder shall conflict with any directive which has heretofore been issued or may hereafter be issued (1) by the Chairman of the War Production Board pursuant to paragraph one of Executive Order No. 9125 of April 7, 1942, or (2) by the Chairman of the War Manpower Commission pursuant to Executive Orders Nos. 9139 of April 18, 1942, 9279 of December 5, 1942, and 9301 of February 9, 1943.

(b) Serve, as far as practicable, as the liaison and channel of communication between parties engaged in the solid fuels industries and the several departments and agencies of the Federal Government on matters directly involving the functions of the Administrator.

(c) Obtain from the Departments of War and the Navy, the several divisions and branches of the War Production Board, such other Federal and state departments and agencies as may be appropriate, and from any other sources, private or governmental, any information, statistics, and data necessary to effectuate the purposes of this Order.

(d) (1) Prepare estimates as to the quantities of solid fuels which the Administrator deems necessary to meet direct and indirect military, and essential industrial and civilian requirements and submit such estimates with recommendations to the War Production Board.

(2) Recommend to the War Production Board any program for distribution of solid fuels which the Administrator deems necessary to meet direct and indirect military, and essential industrial requirements.

(3) Prepare and submit to the War Production Board recommendations as to the kinds and quantities of materials needed by parties engaged in the solid fuels industries to make available solid fuels in such quantities as the Administrator deems necessary to meet direct and indirect military, and essential industrial and civilian requirements.

(e) Subject to the direction of the Chairman of the War Production Board, exercise the powers, authority, and the discretion conferred upon the Chairman by Paragraph 1 of Executive Order No. 9125 of April 7, 1942, by issuing, and taking appropriate action to enforce, such directives to the solid fuels industries as the Administrator may deem necessary, in order to:

(1) Provide adequate supplies of solid fuels for direct and indirect military, and essential industrial and civilian requirements;

(2) Effect the proper distribution of such amounts of materials as the Chairman of the War Production Board may allot for the solid fuels industries.

(f) Compile data and make continuing surveys with respect to the effect of the prices charged for solid fuels upon the efficient wartime operations of the solid fuels industries and the maintenance of adequate supplies of solid fuels for direct and indirect military, and essential industrial and civilian requirements. On the basis of such surveys, the Solid Fuels Administrator shall consult with and recommend to the Price Administrator, for consideration in light of the provisions of the Emergency Price Control Act of 1942, such upward or downward adjustments in the schedule of prices charged for solid fuels as will, in the judgment of the Solid Fuels Administrator, assure the efficient wartime operation of the solid fuels industries

and the maintenance of adequate supplies of solid fuels for direct and indirect military, and essential industrial and civilian requirements. In order to enable the Solid Fuels Administrator to make appropriate recommendations, the Price Administrator shall advise with the Solid Fuels Administrator prior to the establishment or alteration by the Price Administrator of any schedule of prices to be charged for solid fuels.

(g) Be advised of all plans or proposals which deal with the civilian rationing of solid fuels and consult with rationing authorities in the development of such plans or proposals; and, determine, after advising with the War Production Board, the areas and the times within which such rationing should be effective and the amount of solid fuels available for such purpose.

(h) Prepare and submit to the Office of Defense Transportation recommendations concerning the provision of transportation facilities adequate for the transportation and distribution of the solid fuels necessary to meet direct and indirect military, and essential industrial and civilian requirements.

(i) Prepare and submit to the War Shipping Administration recommendations concerning the provision of vessels and related facilities adequate for the transportation and distribution of the solid fuels necessary to meet direct and indirect military, and essential industrial and civilian requirements.

(j) Request the War Manpower Commission to take such action as it deems appropriate to meet the manpower problems of the solid fuels industries in the light of the over-all manpower needs of the Nation, when the ability of the solid fuels industries to make available solid fuels in such quantities as the Administrator deems necessary to meet direct and indirect military, and essential industrial and civilian requirements is represented to be impaired or endangered by a shortage of manpower.

(k) Formulate and submit any necessary policy recommendations to the appropriate Federal departments and agencies, after consultation with them, concerning plans and procedures with respect to foreign solid fuels activities.

4. In the performance of his functions, the Administrator shall consult with the appropriate authorities in the

Federal departments and agencies whose functions affect the solid fuels industries in advance of any action proposed to be taken by him which may affect any such department or agency in the performance of its functions.

5. The several Federal departments and agencies shall supply such information and data as the Administrator may require in performing his functions and shall advise with the Administrator before undertaking any action which might affect the continuous, ready availability of solid fuels for direct and indirect military, and essential industrial and civilian requirements. In order to assist him in carrying out the purposes of this Order, the Administrator may establish committees or designate groups of advisers, representing two or more departments or agencies of the Federal Government, or states.

6. The Administrator may appoint a Deputy Administrator to whom he may delegate, subject to such departmental supervision and direction as he may determine, any and all power, authority, and discretion conferred upon him by this Order. The Administrator may designate either the Deputy Administrator or the Acting Secretary of the Interior to serve as Acting Solid Fuels Administrator in the absence of the Administrator. The Administrator and Deputy Administrator may (a) exercise the powers, authority, and discretion conferred upon them by or under the provisions of this Order through such personnel of the Solid Fuels Administration for War and the Department of the Interior, and in such manner as the Administrator or Deputy Administrator may determine, and (b) accept the services of other departments, agencies, and officials of the Government in carrying out the purposes of this Order. The Administrator, within the limits of such funds as may be allocated or appropriated for the purpose, may employ necessary personnel and make provision for necessary supplies, facilities, travel and services.

7. In the performance of his functions the Administrator shall, to the fullest extent compatible with efficiency, utilize appropriate existing agencies, facilities and services of the Department of the Interior.

8. The Office of Solid Fuels Coordination for National Defense established

pursuant to letter of the President dated November 5, 1941 (changed to the Office of Solid Fuels Coordinator for War by letter of the President dated May 25, 1942) is abolished, and its personnel, records, property, and funds are transferred to the Solid Fuels Administration for War, effective fifteen days from the date of this Order. All directives, agreements, recommendations, and other documents issued or entered into under the functions, duties, and authorities of the Solid Fuels Coordinator for War shall remain in force as the responsibility of the Administrator until such time as he may revoke, alter, or otherwise change such documents under provisions of this Executive order.

9. The Administrator shall keep the President informed with respect to the progress made in carrying out this Order and perform such related duties as the President may from time to time assign or delegate to him.

10. Nothing in this Order shall be deemed to limit in any way the statutory powers of the Interstate Commerce Commission with respect to rates, charges, statistics, accounts, car service (including emergency service powers) or operating authority, or in any way to limit or restrict the functions and authority, and the exercise thereof, of the Federal Power Commission under the Natural Gas Act, the Federal Power Act, Executive Order No. 8202 of July 13, 1939, and Presidential Directives of September 26, 1942 and October 22, 1942 concerning electric service for war plants and establishments.

11. Nothing in this Order shall be deemed to limit in any way the authority of the Departments of War and Navy to initiate or carry out directly, without review or approval by the Administrator, any action relating to solid fuels or the solid fuels industries which either department deems to be a matter of military necessity or expediency and which arises in such areas and is of such military urgency as to require special or secret disposition.

12. Any provision of any prior Executive order conflicting with this Executive order is superseded to the extent of such conflict.

In order to establish a new Committee on Fair Employment Practice, to promote the fullest utilization of all available manpower, and to eliminate discriminatory employment practices, Executive Order No. 8802 of June 25, 1941, as amended by Executive Order No. 8823 of July 18, 1941, is hereby further amended to read as follows:

“WHEREAS the successful prosecution of the war demands the maximum employment of all available workers regardless of race, creed, color, or national origin; and

“WHEREAS it is the policy of the United States to encourage full participation in the war effort by all persons in the United States regardless of race, creed, color, or national origin, in the firm belief that the democratic way of life within the nation can be defended successfully only with the help and support of all groups within its borders; and

“WHEREAS there is evidence that available and needed workers have been barred from employment in industries engaged in war production solely by reason of their race, creed, color, or national origin, to the detriment of the prosecution of the war, the workers' morale, and national unity:

“NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes, and as President of the United States and Commander in Chief of the Army and Navy, I do hereby reaffirm the policy of the United States that there shall be no discrimination in the employment of any person in war industries or in Government by reason of race, creed, color, or national origin, and I do hereby declare that it is the duty of all employers, including the several Federal departments and agencies, and all labor organizations, in furtherance of this policy and of this Order, to eliminate discrimination in regard to hire, tenure, terms or conditions of employment, or union membership because of race, creed, color, or national origin.

“It is hereby ordered as follows:

“1. All contracting agencies of the Government of the United States shall include in all contracts hereafter nego-

tiated or renegotiated by them a provision obligating the contractor not to discriminate against any employee or applicant for employment because of race, creed, color, or national origin and requiring him to include a similar provision in all subcontracts.

“2. All departments and agencies of the Government of the United States concerned with vocational and training programs for war production shall take all measures appropriate to assure that such programs are administered without discrimination because of race, creed, color, or national origin.

“3. There is hereby established in the Office for Emergency Management of the Executive Office of the President a Committee on Fair Employment Practice, hereinafter referred to as the Committee, which shall consist of a Chairman and not more than six other members to be appointed by the President. The Chairman shall receive such salary as shall be fixed by the President not exceeding \$10,000 per year. The other members of the Committee shall receive necessary traveling expenses and, unless their compensation is otherwise prescribed by the President, a per diem allowance not exceeding twenty-five dollars per day and subsistence expenses on such days as they are actually engaged in the performance of duties pursuant to this Order.

“4. The Committee shall formulate policies to achieve the purposes of this Order and shall make recommendations to the various Federal departments and agencies and to the President which it deems necessary and proper to make effective the provisions of this Order. The Committee shall also recommend to the Chairman of the War Manpower Commission appropriate measures for bringing about the full utilization and training of manpower in and for war production without discrimination because of race, creed, color, or national origin.

“5. The Committee shall receive and investigate complaints of discrimination forbidden by this Order. It may conduct hearings, make findings of fact, and take appropriate steps to obtain elimination of such discrimination.

“6. Upon the appointment of the Committee and the designation of its Chairman, the Fair Employment Practice Committee established by Executive Or-

der No. 8802 of June 25, 1941, hereinafter referred to as the old Committee, shall cease to exist. All records and property of the old Committee and such unexpended balances of allocations or other funds available for its use as the Director of the Bureau of the Budget shall determine shall be transferred to the Committee. The Committee shall assume jurisdiction over all complaints and matters pending before the old Committee and shall conduct such investigations and hearings as may be necessary in the performance of its duties under this Order.

The Committee may utilize the services and facilities of other Federal departments and agencies and such voluntary and uncompensated services as may from time to time be needed. CHAPTER IX—DESIGNATIONS OF OFFICIALS

PETROLEUM COORDINATOR FOR NATIONAL DEFENSE

THE WHITE HOUSE,
Washington, May 28, 1941.

*The Honorable, The Secretary of the
Interior,*

MY DEAR MR. SECRETARY: Recent significant developments indicate the need of coordinating existing Federal authority over oil and gas and insuring that the supply of petroleum and its products will be accommodated to the needs of the Nation and the national defense program. Government functions relating to petroleum problems are now divided among numerous officers and agencies of the Federal Government and the principal oil-producing States. The various phases of operation in the petroleum industry itself are numerous and complex. One of the essential requirements of the national defense program, which must be made the basis of our petroleum defense policy in the unlimited national emergency declared on May 27, 1941, is the development and utilization with maximum efficiency of our petroleum resources and our facilities, present and future, for making petroleum and petroleum products available, adequately and continuously, in the proper forms, at the proper places, and at reasonable prices to meet military and civilian needs.

Some of the problems with which we are now confronted and which require immediate action are: The proper development, production, and utilization of those reserves of crude oils and natural gas that are of strategic importance both in quality and location; elimination or reduction of cross hauling of petroleum and its products and the development of transportation facilities and of methods by which more efficient use can be made of existing transportation and storage facilities; balancing refining operations to secure the maximum yields of specific products with full consideration

for requirements, the most economical use of the raw materials, and efficiency of production and distribution; and the elimination of the drilling of unnecessary wells in proven fields and of other unnecessary activities and equipment.

In order to provide the desired coordination, I am hereby designating you as Petroleum Coordinator for National Defense. In that capacity it will be your function and responsibility as my representative:

1. To obtain currently from the States and their agencies, from the petroleum and allied industries, from the officers and agencies of your Department, and from other appropriate Federal departments and agencies information as to (a) the military and civilian needs for petroleum and petroleum products, (b) the factors affecting the continuous, ready availability of petroleum and petroleum products for those needs, and (c) any action proposed which will affect such availability of petroleum and petroleum products.

2. To make specific recommendations to any appropriate department, officer, corporation or other agency of the Federal Government particularly the Office of Production Management and the Office of Price Administration and Civilian Supply, to the appropriate agency representing any State or any combination of States, and to any appropriate industry or part thereof, as to action which is necessary or desirable, on the basis of your determinations, to insure the maintenance of a ready and adequate supply of petroleum and petroleum products.

In carrying out these responsibilities, it is expected that you will consult with the several officers and agencies of the Federal Government, and with the States acting severally or in any joint capacity, to the end that all governmental participation shall consistently further the purposes above outlined. It is also expected that you will consult with the petroleum

Title 3—The President

industry and those industries which affect its functioning, to aid them in shaping their policies and operations in the discovery, development, production, processing, transportation, storage, distribution, marketing, consumption, and import and export of petroleum and petroleum products.

In order to facilitate your work and efforts, I am requesting that the several departments and agencies having functions related to the petroleum problem give you antecedent advice of any action proposed which may affect the continuous, ready availability of petroleum or petroleum products for military and civilian needs, so that you may have opportunity to make specific recommendation concerning such action. I am also requesting that they notify you of all meetings and conferences dealing with these problems, so that your representatives may be in attendance when you deem it advisable.

It is suggested that from time to time you call together all or any of the heads of such departments and agencies, or their representatives, as a committee to discuss such problems as may arise and to develop ways and means of effectuating the highest degree of coordination of Federal functions for the furtherance of the policy herein outlined. The heads of the departments and agencies concerned are being informed of this suggestion and of the contents of this letter, and I am sure you will find them ready to cooperate fully in rendering the assistance requested herein or otherwise needed to assure success of the program.

Within the limits of such funds as may be made available to you, you may employ necessary personnel, including a Deputy Coordinator whose appointment shall be approved by me and to whom you may make any necessary delegation of functions, and may make provisions and for actual and necessary vision for necessary supplies, facilities, transportation, subsistence, and other expenses incidental to the performance of their duties. You will, of course, make use of such statistical, informational, fiscal, personnel, and other general services and facilities as you now have available or as may be made available to you through the Office for Emer-

gency Management or other agencies of the Government.

Yours sincerely,

FRANKLIN D ROOSEVELT

COORDINATOR OF INFORMATION

THE WHITE HOUSE,

July 11, 1941.

By virtue of the authority vested in me as President of the United States and as Commander in Chief of the Army and Navy of the United States, it is ordered as follows:

1. There is hereby established the position of Coordinator of Information, with authority to collect and analyze all information and data, which may bear upon national security; to correlate such information and data, and to make such information and data available to the President and to such departments and officials of the Government as the President may determine; and to carry out, when requested by the President, such supplementary activities as may facilitate the securing of information important for national security not now available to the Government.

2. The several departments and agencies of the Government shall make available to the Coordinator of Information all and any such information and data relating to national security as the Coordinator, with the approval of the President, may from time to time request.

3. The Coordinator of Information may appoint such committees, consisting of appropriate representatives of the various departments and agencies of the Government, as he may deem necessary to assist him in the performance of his functions.

4. Nothing in the duties and responsibilities of the Coordinator of Information shall in any way interfere with or impair the duties and responsibilities of the regular military and naval advisers of the President as Commander in Chief of the Army and Navy.

5. Within the limits of such funds as may be allocated to the Coordinator of Information by the President, the Coordinator may employ necessary person-

nel and make provision for the necessary supplies, facilities, and services.

6. William J. Donovan is hereby designated as Coordinator of Information.

FRANKLIN D ROOSEVELT

COORDINATOR OF GOVERNMENT FILMS

THE WHITE HOUSE,
Washington, December 18, 1941.

HONORABLE LOWELL MELLETT,
Director, Office of Government Reports, Executive Office of the President.

MY DEAR MR. MELLETT: The American motion picture is one of our most effective media in informing and entertaining our citizens. The motion picture must remain free insofar as national security will permit. I want no censorship of the motion picture; I want no restrictions placed thereon which will impair the usefulness of the film other than those very necessary restrictions which the dictates of safety make imperative.

The motion picture, especially as used by the Federal Government, has a very useful contribution to make during the war emergency. In order that the Federal Government's efforts in the field of motion picture production and distribution may serve most effectively and efficiently, it is desirable that all activities of the Federal Government be coordinated under the direction of one central office.

Therefore, as President of the United States and Commander-in-Chief of the armed forces, I direct that you, as Director of the Office of Government Reports, act as Coordinator of Government Films for the duration of the war.

The functions you will discharge in this capacity are:

1. Act as the liaison officer of the Federal Government with theatrical, educational and industrial producers and distributors in connection with the preparation, production, and distribution of films.

2. Establish a clearance office through which all of the Government's civilian films must clear whether they are to be distributed through theaters or through non-theatrical organizations.

3. Plan, so far as necessary, such Government motion picture production and distribution as is deemed necessary to inform and instruct the public during the wartime crisis.

4. Consult with all Government departments in connection with film production and distribution programs and consult with and advise motion picture producers of ways and means in which they can most usefully serve in the national effort.

I further direct that you transmit a copy of this letter to the heads of all Federal agencies.

Sincerely yours,

FRANKLIN D ROOSEVELT

SOLID FUELS COORDINATOR FOR NATIONAL DEFENSE

THE WHITE HOUSE
Washington, Nov. 5, 1941

MY DEAR MR. SECRETARY:

As the defense effort progresses it becomes increasingly urgent to assure that the supply of solid fuels will be adequate and that they will be readily available at consuming points when required for military, industrial, and civilian purposes. Difficult problems are already arising with respect to their supply and availability for such uses. These problems require the efficient and carefully coordinated development, production, distribution, utilization, transportation and handling of solid fuels.

You have in your Department extensive information and facilities with respect to solid fuels. I refer particularly to the Bituminous Coal Division, the Bureau of Mines, and the Geological Survey. In addition, in your capacity as Petroleum Coordinator for National Defense you have important functions with respect to oil and gas. It is essential that the handling of solid fuel and of oil and gas problems should be closely coordinated in the present emergency.

I am, therefore, requesting that you as the Secretary of the Interior shall act as solid fuels coordinator for national defense in performing the following duties:

1. Obtain currently from the appropriate defense and other Federal agencies, from the various States and their subdivisions, and from any other sources,

Title 3—The President

private or governmental, information as to the military and civilian needs for solid fuels;

2. Obtain currently from the solid fuels industries and from any other sources, governmental or private, information relating to development, production, supply, availability, distribution, utilization, transportation and handling of solid fuels;

3. Make recommendations to the Supply Priorities and Allocations Board, the Office of Production Management, the Office of Price Administration, the transportation agencies of the Federal Government and to any other appropriate Federal departments and agencies concerning measures relating to the production, storage, pooling, transportation, distribution, marketing and consumption of solid fuels for the purpose of promoting the maintenance of a ready and adequate supply at reasonable prices;

4. In cooperation with the solid fuels and related industries and with consumers of solid fuels, and in coordination with the Office of Production Management, carry on such programs as will promote economy and efficiency in the development, production, distribution, utilization, transportation and handling of solid fuels, and as will facilitate the operation of the solid fuels industries so as to meet the requirements of the national defense program;

5. Advise and make recommendations to the Supply Priorities and Allocations Board, the Office of Production Management, and other appropriate defense agencies with respect to the material, equipment and supplies which will be required by the solid fuels industries in producing, transporting, and distributing the tonnage needed for civilian and defense purposes;

6. Make other recommendations to appropriate Federal departments and agencies concerning measures affecting the supply and availability of solid fuels as may seem necessary from time to time.

In carrying out these responsibilities, the determinations of the Supply Priorities and Allocations Board and of the Office of Production Management will, of course, govern as to the requirements for national defense, direct and indirect, and as to the establishment and administration of priorities and allocations.

The heads of the agencies and departments concerned are being informed of this designation and I am requesting that they inform you in advance of any action proposed which may affect the maintenance of an adequate supply of solid fuels and of all meetings or conferences dealing with these problems.

I anticipate that you will use your present staff in the discharge of these responsibilities to the fullest extent possible. Within the limits of such funds as may be made available, you may make provision for the necessary services and facilities and you may employ necessary additional personnel, including the appointment or designation, with my approval, of an assistant to whom you may make any necessary delegation of functions.

Sincerely yours,

FRANKLIN D ROOSEVELT

THE SECRETARY OF THE INTERIOR.

"That whenever the President, or the Congress by concurrent resolution, shall find that there exists a state of war between foreign states, and that it is necessary to promote the security or preserve the peace of the United States or to protect the lives of citizens of the United States, the President shall issue a proclamation naming the states involved; and he shall, from time to time, by proclamation, name other states as and when they may become involved in the war."

AND WHEREAS it is further provided by section 13 of the said joint resolution that

"The President may, from time to time, promulgate such rules and regulations, not inconsistent with law as may be necessary and proper to carry out any of the provisions of this joint resolution; and he may exercise any power or authority conferred on him by this joint resolution through such officer or officers, or agency or agencies, as he shall direct."

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by

virtue of the authority conferred on me by the said joint resolution, do hereby proclaim that a state of war unhappily exists between Germany, on the one hand, and Belgium, Luxemburg, and the Netherlands, on the other hand, and that it is necessary to promote the security and preserve the peace of the United States and to protect the lives of citizens of the United States.

And I do hereby enjoin upon all officers of the United States, charged with the execution of the laws thereof, the utmost diligence in preventing violations of the said joint resolution and in bringing to trial and punishment any offenders against the same.

And I do hereby delegate to the Secretary of State the power to exercise any power or authority conferred on me by the said joint resolution, as made effective by this my proclamation issued thereunder, which is not specifically delegated by Executive order to some other officer or agency of this Government, and the power to promulgate such rules and regulations not inconsistent with law as may be necessary and proper to carry out any of its provisions.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this eleventh day of May, in the year of our Lord nineteen hundred and [SEAL] forty, and of the Independence of the United States of America the one hundred and sixty-fourth.

FRANKLIN D ROOSEVELT

By the President:

CORDELL HULL,

Secretary of State.

PROCLAMATION 2405

AND INTERPRETATIONS OF EXECUTIVE ORDER NO. 13, 1942, IN RESPECT TO THE FUNCTIONS OF THE BOARD OF ECONOMIC WARFARE AND THE STATE AND THE BOARD OF ECONOMIC WARFARE

and position, of the Secretary of State, in the formulation and conduct of foreign policy and our relations with foreign nations. In matters of business judgment concerned with providing for the production and procurement of materials to be imported into this country for the war effort, including civilian supply, the Department will recognize the primary responsibility and position of the Board. In many cases a decision may involve both matters of foreign policy and business judgment in varying degrees. No clear-cut separation is here possible. Accordingly, if occasions arise in which proposed action of the Board or its officers is thought by officials of the State Department to be at variance with essential considerations of foreign policy, the Secretary of State and the Chairman of the Board will discuss such matters and reach a joint decision, in matters of sufficient importance obtaining direction from the President.

The Board will continue to recognize that it is the function of the Department of State to conduct or authorize the conduct of all negotiations with foreign governments in Washington and abroad. In negotiations relating to the production and procurement of commodities in-

tended for import in accordance with the President's Executive Order, the State Department will recognize the necessity for the participation of representatives of the Board in order that the latter may adequately discharge its responsibilities. In short, for the effective exercise of the functions both of the Board and the Department, it is essential that from the inception of any project there be complete exchange of information, mutual consultation and mutual confidence.

In negotiations regarding lend-lease master agreements, subsidiary agreements, and arrangements for their implementation, including reciprocal aid to the United States, the Department will obtain the advice, and with respect to the importation of materials and commodities (other than arms and munitions) will obtain the participation of the Board and keep it fully informed.

Missions and individuals desired by the Board to be sent to the field shall be agreed upon by the State Department and the Board in the light of their common desire to increase to the maximum the war effort. The Board will recognize that all functions which are being or can be performed through the regular or auxiliary Foreign Services of the Department should be so performed. The persons and missions which the Board contemplates being sent to the field, other than through the services mentioned, are those needed for the specialized technical and operational functions connected with production and procurement. The Department of State will recognize the need for sending such persons. In exceptional circumstances the Board and the State Department will collaborate in sending joint missions on problems arising from export control or the general economic warfare activities of this Government.

The Board will recognize that persons sent abroad, as provided above, shall be authorized by the Secretary of State, shall assume the status directed by the Secretary of State, and in this respect be subject to the jurisdiction of the Secretary of State. The Chief of the United

Chapter XI—Interpretations

States Diplomatic Mission in a foreign country is the officer of the United States in charge in that country under whose supervision are coordinated the activities there of all the official representatives of the United States. All negotiations abroad with foreign governments or officials should be conducted by or under the direction of the Chief of the Diplomatic Mission in the manner described above applicable to negotiations in which the Department and the Board participate. All activities should be fully reported to the Chief of the Diplomatic Mission and be conducted under his advice and instructions. He will respect the position of the Board's representatives in matters of technical and business judgment and, should questions arise that cannot be settled by agreement in the field, which should rarely be the case, they will be reported through the State Department

and settled by the Secretary of State and the Chairman of the Board.

All communications to and from persons or missions sent abroad shall be through the facilities of the Department of State and diplomatic missions unless other means are agreed upon between the Board and the Department of State. The Department will do its utmost to provide expeditious means for such communications.

Both the Department of State and the Board of Economic Warfare and their officers recognize in the present emergency the need for speed in action and the importance of avoiding all delay in the decision of important matters.
